LET THERE BE HARMONY IN THINGS ESSENTIAL—LIBERALITY IN THINGS NOT ESSENTIAL—CHARITY IN ALL.

BELLEVILLE, ONTARIO, MONDAY, NOVEMBER 1, 1880.

NO. 155

VOL. 14

## GRAND JUNCTION AND BELLEVILLE & NORTH HASTINGS RAILWAYS.

On and after Tuesday, June 1st, 1880, Trains will run daily as follows:—  
Leave Belleville for Stirling, Campbellford and Hastings, at 3.30 p.m.  
Arrive from Stirling, Campbellford and Hastings, at 10.30 a.m.  
Trains are run by Belleville time.  
E. H. BRENNAN, Superintendent.

## MANHOOD: HOW LOST, HOW RESTORED.

We have recently published a new edition of Dr. Oliver's "Manhood," a treatise on the physical and mental health of man, and its restoration. It is a book of great value, and one that every man should read. It is a book that will show you how to live, and how to keep your health. It is a book that will show you how to live, and how to keep your health. It is a book that will show you how to live, and how to keep your health.

## SUMMER SERVICE.

ALLAN LINE.

STEAM TO LIVERPOOL.

THE first-class Clyde built iron steamships of the Allan Line, carrying the Canadian mail, and other passengers, will be despatched from Quebec for Liverpool and London every Saturday, as follows:—

SALEPASSE FROM QUEBEC.	27 Aug.	27 Aug.
MORAVIAN	14th	14th
SARMAIAN	21st	21st
GERMANIAN	28th	28th
PERUVIAN	4th Sept.	4th Sept.
POLYNESIAN	11th	11th
MORAVIAN	18th	18th
SARMAIAN	25th	25th
GERMANIAN	2nd Oct.	2nd Oct.
PERUVIAN	9th	9th
POLYNESIAN	16th	16th
MORAVIAN	23rd	23rd
SARMAIAN	30th	30th
GERMANIAN	6th Nov.	6th Nov.
PERUVIAN	13th	13th
POLYNESIAN	20th	20th

## RATES OF PASSAGE.

From Belleville to Liverpool or London direct, \$100, and \$50, according to position of berth.

Intermediate, with first-class Liverpool \$47, Steamer, do. from \$32.25 to \$34.

Return Tickets at reduced rates. Steamer tickets are issued without extra charge to or from Liverpool, London, and other ports.

The last train connecting with the Ocean Steamer at Quebec, leaves Belleville every Friday at noon. Passengers go at once on board.

For further information and every information apply to U. E. THOMPSON, Agent Allan Line, Canadian Express Office, Belleville.

## BANKING OFFICE.

U. E. THOMPSON, Agent Allan Line, Canadian Express Office, Belleville.

## AMERICAN CURRENCY & DRAFTS.

Bought and Sold.

## ROYAL.

INSURANCE COMPANY OF LIVERPOOL, ENGLAND.

LIABILITY OF SHAREHOLDERS UNLIMITED.

CAPITAL \$10,000,000. FUND \$10,000,000. RESERVE \$10,000,000.

The ROYAL Insurance Company has the largest surplus of any Fire Insurance Company in the world.

Agents: Messrs. G. H. & J. H. TAYLOR, Chief Agents, Montreal.

## EXTRACT FROM THE "MAIL," TORONTO.

W. M. BUCK, of Bradford, proprietor of the Victoria foundry, certainly makes a display which is not only creditable to his establishment, but a source of service to the beholder, whose first exclamation seems to be, "Are these things intended for use or ornament?" and upon interrogating the proprietor, or Mr. N. L. Piper, the agent in Toronto, he is informed that the inventor had both ideas in his mind—useful as combined with beauty. His idea was to make a stove something like an attractive housewife—fit to grace the parlor or command in the kitchen. Here is a line of self-heating "Radiant Home" stoves, and as they are all handsomely nickel-plated they are very attractive. These come a parlor cookstove, with all the necessary modern improvements.

The "Radiant Home" can be seen at A. Chown's, Front St., and only has to be seen to be appreciated.

Also a great variety of other makes and styles in all classes of stoves.

A. CHOWN, Stove, Tin & Hardware Store, 301 Front Street, Belleville.

To Steam Users.

THE Canadian Steam Users' Insurance Association make careful and periodical inspection of the machinery of steam engines, and their management, and grant insurance against loss or damage by explosion. None but competent inspectors employed. Special attention given to the economical of steam, saving of fuel, etc. Steam Engines indicated, and plans and specifications of boilers and engines made, and their erection supervised. Head Office, 50 Front St. East, Toronto.

HON. ALEX. CAMPBELL, President.

W. O. ROBB, Chief Engineer.

THIS Hall has been recently taken by Mr. HENRY HOGAN, the former proprietor, who has handsomely and appropriately decorated and renovated the whole of the hall with new furniture. The Hall is admirably situated, being in the very heart of the city, and contiguous to the City Hall, the principal Banks, public buildings, law courts, commercial exchanges, railway and other offices. 14311

CAUTION.

EACH PLUG OF THE MYRTLE NAVY!

IS MARKED T & B.

IN BRONZE LETTERS.

NONE OTHER GENUINE.

PRIVATE MONEY TO LOAN.

\$8000 of Private Money at 8 p.c. cent. Charges low. No Commission.

PETERSON & PETERSON, BARRISTERS, etc., Belleville and Macdon.

NOTICE.

THE outstanding accounts of the late firm of Bell & Bell, are to be paid over at once to the firm of Bell & Bell, by whom the liabilities of the late firm of Bell & Bell will be met.

## NEW TAPESTRY & BRUSSELS CARPETS.

Received This Week

Fifteen pieces Tapestry and Brussels Carpets in new designs.

Although our sales of Carpets are so large we take good care to keep the stock constantly renewed and well assorted; and at this season of the year, when the rush of the U. S. trade is over, we are able to buy considerably cheaper than we could have done earlier. We can thus sell at very low prices, while we always show a new assortment.

The Marmora, Ontario, Gold Mines

(From the New York Engineering and Mining Journal, Oct. 23.)

There are comparatively few people who know that within twenty-four hours of New York and within a few miles of the city, there are gold mines which have been developed to so great an extent and with such satisfactory results as to place them fairly among the great mining properties of the continent.

The Marmora Gold Mines are situated about 30 miles north of the City of Belleville, Ontario, or about 70 miles northwest of Kingston, which is at the eastern extremity of Lake Ontario. The railroad at the village of Marmora is within 9 miles of the mines, and the roads are excellent, being macadamized and without any heavy hills. The roads are situated in a well settled farming district, where supplies of all kinds are extremely cheap and quite abundant. Gold was discovered in this district as long ago as 1853, when what is known as the Richardson mine was opened. This is not properly in the Marmora belt, but is a deposit on the contact of dolomite and chlorite slates. Out of a small pocket of decomposed rock not more than 60 cubic yards in extent, an amount of gold valued at \$150,000 was extracted, and for the most part—stolen. The ore did not occur in a regular vein, and as the company had no working capital, no work was done, and the mine was abandoned. The importance has been done at the mine since the wonderful pocket first discovered was worked.

In the year 1885, gold was first discovered in the true Marmora belt of the Marmora gold belt, and some small mills were erected to treat the gold-bearing arsenical pyrites as "free-milling ore." The operations were all undertaken by persons who were ignorant of the methods of treating sulphuretted ores, and almost wholly without capital, so that while as much as \$9 and \$10 per ton was occasionally obtained, the expenses of carrying on the work under the disadvantages mentioned and the loss not only of gold but of quicksilver, caused the abandonment of the mine on the one hand, and the loss of the mine on the other.

Through the mine on the one hand, the property owned by the Galling Gold and Silver Mining Company had been opened to a depth of about 80 feet, and had been prospected in length by a system of shafts and surface openings, showing the veins to be of great width and the ore to be of a highly profitable grade, yet the old cause of lack of capital and want of experience prevented even the company from ever finishing a mill that had commenced or of working either the ore or the mines during the past seven or eight years, while the mine and well known as the Marmora property, and the company to hold it at such a high price that no one would buy it. This, in brief, has been the history of a district which each of the great mining companies of the world have examined the mine to be one of the most valuable mining properties on the continent, and it answers in a measure the very natural question which each in turn has asked, "How has the property been so long neglected?"

Ten months ago, we personally visited this district, and after a careful examination of the mines, found a number of properties, and for four months worked the mines with a force of from eighty to ninety men, sinking shafts, driving levels, etc., and thoroughly testing the ore on a large scale, making about one thousand tons and sampling over six hundred tons of this in five ton lots. Since then, the work of sinking has been continued, and the depth attained is now 150 feet. The ore for the Marmora belt is the richest yet found in the mine.

After this most exhaustive series of tests, the purchase of several properties was determined on, and a company was organized under the name of the Marmora Gold Mining Company, was organized under the general laws of the State of New York, and the stock, the greater part of which has been already paid up, is now in the hands of the company, and the company is now in the hands of the company.

THE MINES OF THE CANADA CONSOLIDATED GOLD MINING COMPANY.

The questions which would naturally be asked concerning any mining property, which attention was directed would be as follows:

1. Character of the veins and of the ore.

2. Extent of the property.

3. Amount of development.

4. The average value of the ore.

5. The quantity and value of the reserves, or ore in sight.

6. The cost of mining and milling.

7. The net profits.

8. Title, taxes, wages, water, roads, supplies, cost of living, etc., and, finally, the ability of stockholders, working capital, etc.

In the case of the Canada Consolidated Gold Mining Company, all these questions are answered in the fullest manner on the authority of such well known experts as Prof. E. J. Chapman, of University College, Toronto; Prof. W. T. Rickard, of London, England; Capt. Benjamin Plummer, expert for John Taylor & Sons, London; Messrs. Francis and Rowe, who also reported to John Taylor & Sons; John G. Randolph, of Alabama; Capt. Thos. Couch, Mine Superintendent Horn-Silver mine, Utah; R. H. Street, San Francisco; N. B. Walker, New York; and J. P. Rothwell, etc.

The opinions of these gentlemen are given in a pamphlet, which lies before us, and they are uniformly to the effect that this is an extremely valuable property, though at the time many of the reports were given the mines were not nearly so extensively worked as they are now, and as they are now, the time may be safely counted as one of the most successful in the history of the New York market.

1.—THE CHARACTER OF THE VEINS AND OF THE ORE.

The gold-bearing veins are quartz-filled true fissures in argillaceous granite, with micaceous or talcose slates forming the walls. This talcose slate is really the product of the chemical decomposition of argillaceous slates along the veins, where it and quartz form the gangue, an amount of gold-bearing iron pyrites (mispickel). The magnesia of the talc comes from the hornblende in the argillaceous granite.

## The Montreal Exhibition.

A writer in the Canadian Spectator throws discredit on the exhibition of musical instruments at Montreal, ridicules the judges, sneers at the stately Weber piano for appearing in such company, and sarcastically asks why the piano of Decker, Steiner and Chickering did not put in an appearance, whereupon an "exhibitor" goes for him and the piano, whose absence he deplores, in the following lively style:

"An exhibitor's words."

"Six—Under the above heading, a very severe, and to my mind, unjust criticism of the musical portion of our exhibition appears in the Montreal Spectator. It is a very difficult one, undertaken with great reluctance, after repeated solicitation, and performed without remuneration. But, standing the evident desire of the writer to conceal his motive, his real object is quite apparent. The piano is now in the hands of Decker, Steiner and Chickering, who, at great personal expense and sacrifice of time, did what they thought was a very successful one. It is not to this critic that the exhibitors alone who are the object of his unkind and unjust remarks. The judges (giving the names of each) are sneered at with impudence. It did not occur to this critic that the exhibitors, to these gentlemen, the musical portion of our exhibition appears in the Montreal Spectator. It is a very difficult one, undertaken with great reluctance, after repeated solicitation, and performed without remuneration. But, standing the evident desire of the writer to conceal his motive, his real object is quite apparent. The piano is now in the hands of Decker, Steiner and Chickering, who, at great personal expense and sacrifice of time, did what they thought was a very successful one. SELLEVILLE, MONDAY, NOV. 1.

## An Early Session.

The Mail in its issue of Saturday foretold an early session of the Dominion Parliament. It says: "It is by no means improbable that Parliament will be summoned at an early date for the regular session. The opening of a special session was probably deemed far too serious an event to be incurred for the discussion of one so important matter as the Pacific Railway contract; but as the contract may be considered as now concluded to all intents and purposes, the Government no doubt feel disposed to meet the wishes of the country for an early meeting of Parliament as the public business will admit of. We may, therefore, look for a session beginning before Christmas, and continuing, after a short adjournment for the holidays, till the business is concluded. We do not imagine that the session will this year be a very long one. It has been inevitable that the Government should be prevented from getting any measure ready for the consideration of the House. For our own part we shall welcome the early session very cordially. The country would doubtless have approved of an extra session had the negotiations been concluded at an earlier date, but as the season is so far advanced, it seems needless to incur a large expense to save but a very few weeks of time."

## The Marmora Gold Mines.

In other columns will be found the text of a series of articles, copied from the *Engineering and Mining Journal* of New York, on the subject of the Marmora gold mines. The article in question is from the pen of Mr. Richard P. Rothwell, mining engineer, the editor of the publication in question, and as the information therein contained is founded on practical and exhaustive tests of the ores of the properties more particularly described, its value is very great. The effect of so favorable a report appearing in a journal of high respectability and large influence such as that conducted by Mr. Rothwell cannot fail to be of a character highly favorable to the district. Capitalists who have hitherto been uncertain of the value of the gold deposit in Marmora will thereby be invited to visit and examine the districts, and it is reasonable to conclude, to invest in gold mining there and carry on operations upon a large scale. We trust that such may be the case, and that the region may become at an early day one of the greatest gold producing districts in the world.

What with the gold mines of Marmora, the iron mines of Madoc, and the vast deposits of mineral wealth of other descriptions known to exist there, the near future of the Hastings district seem to have a bright future before them. The two things necessary to secure the development of the country are the extension of the railway from Madoc and the construction of the Marmora Canal, and both these enterprises we hope to see carried to completion in the near future.

## Political Notes.

The chief organ of the Opposition tries to make a play by saying: "The protectionist organs are at loggerheads over the effects of the duty on grain. The Belleville *Intelligencer* says that nobody but a fool would expect the duty on barley to give the farmer an increased price for what he has to sell, and the *Peterborough Review* says the cap on barley that the duty on wheat enhances its price. We turn the *Review* over to the tender mercies of the organ of the Minister of Customs." The above is incorrect. The *Intelligencer* never said language which would convey the idea that the duty on grain does not enhance the price of that article. As to barley of which we import very little, and as to wheat, of which we formerly imported a large quantity, has been increased in price by the duty, we have previously shown. Rye has also been improved in price, as we now that U. S. rye is shut out it is largely used in distilling. Thus both the *Intelligencer* and the *Review* are right.

PROMOTED—Col. Irvine, Assistant Commissioner of the North-West Mounted Police force, has been promoted to the position of Commissioner vacant by the retirement of Col. Macleod.

A TRAILING SHIRT—The Mail says:—"It is learned that at the solicitation of the Governor-General, who has taken a great personal interest in the matter, the British Government have placed a war ship at the disposal of the Canadian Government, free of all expense, to be used for such purposes in regard to the education and training of sailors as may be determined on."

## Correspondence.

Whilst correspondence will be accorded space for the expression of their views on topics of public interest, it must be in all cases understood that the views so expressed are simply those of the correspondents themselves.

To the Editor of the Intelligencer.  
In the INTELLIGENCER of October 28th, under the heading of "The Provincial Fair and Agricultural Shows Generally," the following paragraph occurs: "The same remarks apply to Township fairs, not a few of which have degenerated into a sort of family party, where the same people bring the same old articles year after year as regularly as the seasons come around, and are as regularly awarded prizes for them. An instance of this sort of thing occurred at a fair held not a thousand miles from Shannonville, where a quilt was placed on exhibition which had seen as much service that it had been re-lined for the annual show."

Any person reading the above would naturally infer that the judges on quilts at the Tynesburg show had awarded a prize to one that was old and worn.

Now this was not the case. There was but one prize awarded to quilts and that was given to a new one that had never been on exhibition before.

In justice to the Judges and the Board of Directors, I would request you to give this a place in next week's paper, and oblige

Yours truly,  
CHARLES ANDERSON,  
Sec'y Tynesburg Agt. Society.

[Editor's Note.—Such a quilt as is above referred to was undoubtedly shown, but the Judges did their duty in passing it over.]

## Cabinet Changes.

The Mail of to-day has the following reference to the Cabinet changes:—"The elevation of M. Baby to the Bench and the resignation of M. Men have deprived the Government and the country of the services of two able and popular gentlemen in positions which they were eminently fitted to fill. M. Baby will make an excellent judge, and thus in another capacity his services will be retained for the public; but the service of the Island Revenue as a Minister, who was, we believe, one of the most capable and firm administrators that he ever filled the position. It is understood that the places of the two gentlemen mentioned will be filled by M. M. Chaplain and Caron. In both cases the public generally will be pretty sure to approve the selection. Both are young men and capable lawyers. M. Chaplain is an administrator of proved capacity in the difficult business of the Province of Quebec, an organ unsupervised by any one in public life, and a worker of consummate industry. M. Caron brings to the Cabinet the might of an honored name, a traditional familiarity with the questions of public life, and a proved faithfulness to the traditions and policy of the Conservative party. Personal popularity both in a large degree command; and both are enthusiasts in the business of politics."

A NEW METHOD OF TREATMENT.—In an action for seduction tried at the Essex Assizes Mr. Justice Armour made the significant remark to the jury that the policy hitherto pursued by judges in such cases of directing the jury to bring in light verdicts had failed of its object, namely to reduce the number of such actions, and he thought it was time to try the effect of heavier verdicts. The jury accordingly brought in a verdict for \$2,000 damages.

AIR ENVOIES.—Notice is given in the *Canada Gazette* that application will be made to the Parliament of Canada at its next session for an act to incorporate the City Railway Company for the purpose of building, equipping and operating single and double track railways with air engines (compressed air) as the motive power for the conveyance of passengers in the streets and suburbs of the cities of Montreal, Toronto, and elsewhere in Canada.

ONE GOOD TURN DESERVES ANOTHER.—The Minister of Education has issued a circular to municipal corporations, school boards, and inspectors, pointing out the necessity of providing efficient school accommodation, the *Brantford Telegram* suggests that it will now be in order for the instructed to turn round and point out to Mr. Crooks the necessity that exists for the appointment of a practical Minister of Education.

A LARGE CONCERN.—The Montreal *Witness* says:—"On Thursday a dinner was given in Ottawa on the occasion of the departure of Mr. Spens, the editor of the *New Dominion*, to Bermuda for his health. A gentleman who was present stated that the meeting was rather antiseptic with a statement made by Mr. S. W. Foster on the occasion to the effect that the Grand Trunk spent \$4,000,000 annually in wages and employed ten thousand persons in all, and was more astonished when told that \$1,500,000 of English money had been sunk in this continent by the Grand Trunk Railway Company. It was stated also on this occasion that the Grand Trunk paid \$20,000 annually in taxes to this city."

PLENTY OF MONEY.—The accumulation of money in the Banks has been so enormous, and the difficulty of finding profitable investment for it has been so great, that they have been compelled to reduce the rate of interest to depositors to 3 per cent. They have also decided not to allow interest on current accounts. Circulars to that effect have been issued by the local Banks on Saturday. In view of this fact, we hope to see some of this surplus money seek investment in manufactures in this vicinity. There are a number of industries that might be established here, which under careful and prudent management would not at least from 12 to 12 per cent to the investor.

THE MARINE-PRINCE SWAP.—The *Reform* journal are "speaking out" on the Marine Prince Swap, in terms by no means complimentary to the Ontario Government. The *Elora Express*, (Reform) declares that in the county of Wellington "there is not the second opinion as to the folly and impropriety of this swap, and we have not yet seen the first man who defends the swap, or regards the foisting of Captain Prince upon the people of this section as other than a direct insult to an intelligent community." It adds this significant warning:—"We have no hesitation in saying that there was an election in St. Wellington to take place now, the Government nominee would be badly beaten, and that the constituency would go over to the enemy, because of the apathy and coolness, if not active opposition, of prominent Government supporters."

## News Condensed.

—November 25th is to be Thanksgiving Day in the United States.  
—Hon. Alex. Morris refused \$15,000 for a lot in the City of Winnipeg.  
—A Guelph farmer has been awindled by two confidence men at Hamilton.  
—The exports from Picton for the quarter ending Sept. 30th amounted to \$25,884.81.  
—The Fish Jubilee Singers (colored) were repulsed from the Teumessah House, London, Ont. St. John city bonds sold, at auction on Saturday, went as high as 6 per cent. above par.  
—Fifty-six carloads of sugar were shipped to Montreal and Montreal from Halifax last week.  
—William Cunard, head of the Cunard line, and his son Ernest arrived at Halifax on Saturday.  
—Saturday was the eighty-first anniversary of the birth of Mgr. Bourget, lately Bishop of Montreal.  
—It is reported that the Czar is in such a low state that his death may be expected at any moment.  
—Mr. Dyre Platt, an old and respected resident of Picton, died on the 23rd in the 68th year of his age.  
—Mount Vesuvius is still in a state of active eruption, and streams of lava are flowing down its western slopes.  
—Several night schools are announced to be opened this evening under the auspices of the Toronto Public School Board.  
—Lord George and Lady Campbell are coming to Canada to spend the winter with His Excellency the Governor-General.  
—Jesse Thompson, bill discounter, of Toronto, has disappeared rather abruptly. He left behind a bad reputation and large outstanding liabilities.  
—Sir A. T. Galt says there is no truth in the rumor that he is to enter the Dominion Cabinet. He will sail from New York for England next Saturday.  
—All of Gough's lectures in Canada have been attended by the present Mr. Gough has been suddenly called home on business connected with his family.  
—In five actual working days the *Armstrong* at Brockville has landed into the United States 142 cars, carrying 5,400 sheep, 20 horses and a large quantity of hop poles, lumber and ore.  
—At the school election at Saratoga, N. Y., three women were elected members of the Board of Education. Three men ran against them, but the women were chosen by a vote of 10 to majority.

—An Hon. Member, M.P., has been appointed to the Ministry of Agriculture in the adjustment of the Province's differences with the Dominion Government in connection with the Equinault and Nanaimo railway.  
—A proclamation signed by nine magistrates prohibits the meetings announced to be held at Duggan's in the first week in November. This sudden decision is owing to a report that ten thousand Orangemen would interfere with the meetings.  
—George Munro, a native of Nova Scotia, and a well-known and wealthy publisher of New York, has signified his intention of giving fifty thousand dollars to endow a chair of Irish in Dalhousie College, Halifax. This will make his gifts to Dalhousie aggregate \$110,000, the greatest gift ever made by a native Nova Scotian.

—On Wednesday an old man aged about eighty years, named Foley, strayed from his home at Whitby and has not since returned. He was in his lodge and subject to fits. Diligent search has been made for him ever since, but without success. He was last seen at half-past five on Monday evening near Lynde's creek marsh, and it is feared that he is drowned. He has been a resident of Whitby for over thirty years.

GAZETTE.—The *Canada Gazette* of the 30th ult. contains the appointment of the Hon. L. E. O. Galt as a judge in the Superior Court of the Province of Quebec vice Poitras.  
CREDIT VALLEY RAILWAY.—It has been learned on good authority that a change has taken place in the directorate of the Credit Valley Railway; Messrs. C. J. Campbell, Robert Elliott, John MacNabb, and Angus Morrison having retired, and Messrs. E. B. Oaler, P. D. Conger, C. Barnes and John Burns having been elected in their place.

UPS AND DOWNS.—Among the passengers on board the *America* was the wife of Abraham Lincoln. It is a curious fact, that while an ovation was being tendered Sara Bernhardt, the wife of the martyr President, walked the crowd unnoticed, a gray, faded old woman, jostled and pushed by Americans crowding to catch a glimpse of the French actress.

GRAND TRUNK CAR WORKS.—The new additions to the buildings of the Grand Trunk car department in Montreal are all in working order, and no less than a hundred box cars are being turned out of the shops weekly. In the locomotive construction shop there are at present some fifty locomotives all in various stages of construction, one of which will be turned out completed each week.

THE GREAT GALE.—Reports are still coming to hand of losses by the great gale of last week in northern Europe. It is forty years since the marine underwriters have had to face such a list of disasters at sea, and as might be expected, the excitement among the fraternity of Liverpool runs very high. To make matters worse, the entire year has proved unfavorable for the marine insurance business, and this crowning batch of disasters has capped the climax.

RUMORS DENIED.—The Mail has the following semi-official announcement: "The statement that Sir Alexander Galt would not be received in England for social reasons is untrue. It is likewise untrue that he will return to England, but will remain to fill the office of Finance Minister. There will be no change in the Finance Ministry and no change in the English Ministry. All the rumors as to a renewed visit of ministers to England are incorrect. There is no intention on the part of ministers of going to England again this year or next year either, for money or any other purpose, present within the knowledge of the Ministry."

Mr. Thos. Fraser, Newhall Village, N. B., desires to say that a few weeks ago a loaded wagon went over his leg, causing a severe sprain, was confined to bed, and would have been there if he had not used Doan's Sturgeson Ointment. A couple of bottles made his leg perfectly well.

## Stratford's Progress.

(London Free Press, Oct. 30th.)  
This flourishing town has now about 9,000 inhabitants, hence only requiring 1,000 more to be a city. It is improving rapidly, and several fine blocks of buildings have been erected this summer, notably those by Horne, Halliday, Gruber, and Gibson. Many of the stores have plate glass fronts, and would be a credit to any city. Ontario, the principal street, is a fine broad thoroughfare.

Stratford is indebted to the extensive car works and locomotive shops of the Grand Trunk Railway for its rapid increase. The Company give employment to about 500 men and over \$20,000 are disbursed monthly for wages. The car shops are full of waste, and the men are working on full time. They seem to take a pride in keeping the shops and surrounding grounds in the best of order, and the visitor is delighted with the evidence of good taste displayed on every side. A handsome building has been erected for a Library Institute, which is supported by a voluntary contribution of 100 per cent from each employee. The Institute comprises a spacious lecture room, and a well stocked library, with a librarian constantly in attendance. The reading room contains all the principal papers of the Dominion. Mr. Harry Roberts the head of the locomotive works here, has been untiring in his efforts to promote the intellectual welfare of the men, and mainly through his exertions the munificent sum of one thousand dollars was donated to the Institute. The reading room contains all the principal papers of the Dominion. Mr. Harry Roberts the head of the locomotive works here, has been untiring in his efforts to promote the intellectual welfare of the men, and mainly through his exertions the munificent sum of one thousand dollars was donated to the Institute. BELLEVILLE, TUESDAY, NOV. 2.

## Thanksgiving Day.

To-morrow has been set apart as a day of general Thanksgiving to Almighty God for his great mercies to us as a people, and as the country has been blessed with a most abundant harvest, it is to be hoped that the day will be universally observed. Business has generally been prosperous, our barns and storehouses are full, peace and contentment reign within our borders, and as a nation it is right and meet that we should acknowledge the source from which all these blessings flow.

## The \$99,000 By-Law.

The qualified electors will to-morrow vote on a proposed By-law for the purpose of raising by way of a loan the sum of \$99,000 for the following purposes: To pay of indebtedness to the Merchants Bank, which has accrued during past years, \$66,543.30; to pay off overdue debentures \$19,000; \$4,456.80 due the County of Hastings; deficit from last year \$5,109.91 (including balance on school requisition); small post hospital \$1,500; new fire hose \$1,150; grant to Home for Friendless \$300; and other expenditures of an extraordinary character. The amount required to make the assets and liabilities at last year square with each other would, in fact, be much greater than appears on the face of the statement, as it would be an impossibility to collect the full amount of the taxes owing to the Corporation.

We have previously urged that this By-law should be passed, and now on the eve of the polling we repeat that advice to the ratepayers. It is in the first place a measure of expediency, as the rate of taxation would otherwise be 23 mills—a rate which but few of the taxpayers would not feel oppressive. Again, by the lowering of the rate of interest on the amount due the bank and on the \$19,000 overdue debentures, a very considerable annual saving (about \$1,100) would be made in the interest account; and further, the money market is now in so favorable a state that our 6 per cent debentures will sell at a premium—a circumstance which would benefit the city materially. Besides this, the financial affairs of the Corporation would be so simplified that the continued prudence on the part of the Council the rate may in the future be kept as low as 18 mills, or possibly a fraction less, and all liabilities be provided for.

There are those who oppose the passage of the By-law on the ground that each year's expenditure ought to be kept within the revenue. With this principle we thoroughly agree, but in this wiping out the arrears of former years the ratepayers will do the best thing possible under the circumstances. Previous Councils by exceeding the estimates left a legacy of debt, and it would obviously be unfair to call upon the people to pay off that amount in any one year; but by spreading the payment over twenty years, as proposed under the By-law, no difficulty would be felt. There can be no question of borrowing of sinking funds as in that case the law being now imperative in that respect, so that that great incentive to extravagance is removed, and as those who pay the taxes have it in their power to enforce economy, there is no reasonable ground for fearing that the same carelessness will occur in connection with our finances as during the past ten years or thereabouts, the more especially if the ratepayers look sharply after their representatives.

We therefore consider it advisable for the electors to vote in favor of the By-law, and we hope to see it carried by a large majority. As some of the opponents of the measure are circulating the report that should the By-law pass the City would not be able to meet its debentures except at a sacrifice or even at par, we may state that already the Chairman of the Council has received a number of offers from leading Bankers, and Banking Associations of Canada, and enquires from others, showing an eagerness to possess these debentures. We are not at liberty to mention the amounts offered, for, as the Council will ask for tenders, it would be unfair, but we may say that there is every probability that the debentures would sell at a rate considerably over par. The fact is, there is such a plethora of money in the hands of capitalists seeking investment, that there will be no difficulty in floating the debentures at a very satisfactory figure.

We hope those ratepayers in favor of the passage of the By-law will see to it that it is not lost through any inaction on their part.

## The Presidential Election.

From Maine to Florida, from Cape Cod to Cape Mendocino, there has been raging all this day probably the bitterest and most convulsed political struggle that has ever known in our country. The great struggle will be closed to-day, for it has been continued uninterruptedly for the past four months. It would be vain for us to predict with any confidence the result of to-day's balloting. If the Democrats had conducted the campaign ably and temperately there can hardly be a doubt that they would have succeeded in sending General Hancock to the White House for the next four years; but they have blundered sadly in many respects, and have so weakened their chances by their own short-sighted policy that the probability of the General taking up his residence at Washington is exceedingly small. The great blunder was in regard to the tariff. At the outset of the campaign many of the organs and orators of the party took up the cry of tariff reform—advocating the abolition of protective duties and the establishment of a tariff for revenue purposes only. This cry was raised with the special object of inducing the farmers of the west, who, if any class were losers by a protective tariff, would be that particular class. The oracles of the party were congratulating themselves on the rapidity with which the leaven of their free-trade doctrine was spreading through the west, and quickening the bucolic minds of the independent agricultural voters of that region—when the result of the recent elections in Ohio and Indiana came down upon them like a thunderbolt. They succeeded in convincing the western farmers to think about their own interests, certainly; but, as is not seldom the case, the result of that honest thought was disastrous to free-trade principles. Before the election in Ohio and Indiana, it was tacitly admitted by both parties, that their result would be a criterion of how those States would vote in the Presidential election. The result was unquestionably favorable to the Republican cause, and it is therefore but reasonable to suppose that those States will yield a Republican majority to-day. Since these States elected, the Democrats have completely altered their policy with respect to the tariff, as well as they could without rendering themselves absurd. For the past few weeks the party oracles have usually maintained a discreet silence on the subject, as far as was possible. General Hancock himself, in a recently published letter, wishes to know, "what is all this absurd talk about free-trade?"—a question which proves that General Hancock is not a close student of the newspapers.

Another great blunder which the Democratic tacticians have been guilty of is the miserable system of personal abuse which they have introduced into the campaign. The skirts of the Republicans are not altogether clean in this respect; but by far the greater part of the disreputable tactics which have lately brought disgrace upon American politics is belated at the door of the Democrats. They inaugurated the campaign with a lie and have closed it with a forgery—both directed against the personal character of Mr. Garfield. Such tactics seldom prosper, and have not prospered in this instance. They have recoiled on the heads of their originators, for they have disgusted honest-minded Democrats, put ten-fold energy into the supporters of the Republican candidate, and caused a vast number of indifferent citizens, who had decided not to take any part in the contest, to flock to his standard.

The chances of to-day's voting are therefore strongly in favor of Mr. Garfield. If Ohio and Indiana go for Garfield the result will be decided in New York. On which- ever side that State throws her thirty-five electoral votes, that side will be sure of the election. The number of votes in the Electoral College necessary to a choice is 185. Without New York the Democrats probably have 153, and the Republicans 181.

The following table, showing the total popular and electoral vote polled by each President of the United States from Washington to Hayes, will no doubt be interesting to our readers at this time:

Year.	Candidate.	Popular vote.	Electoral vote.
1789	Gen. Washington, Unaff.	69	69
1792	Gen. Washington, Unaff.	68	69
1796	John Adams, Federal.	71	71
1800	Thomas Jefferson, Rep.	68	73
1804	John Adams, Federal.	64	66
1808	Thomas Jefferson, Rep.	68	73
1812	James Monroe, Rep.	68	73
1816	James Monroe, Rep.	68	73
1820	James Monroe, Rep.	68	73
1824	Andrew Jackson, Dem.	152,899	99
1828	John Q. Adams, Federal.	105,321	84
1832	Henry Clay, Rep.	47,581	41
1836	Andrew Jackson, Dem.	650,028	73
1840	John Q. Adams, Federal.	512,158	83
1844	Henry Clay, Rep.	257,092	29
1848	Franklin Pierce, Dem.	1,333,537	42
1852	Franklin Pierce, Dem.	1,355,454	254
1856	John C. Fremont, Rep.	1,341,312	114
1860	Abraham Lincoln, Dem.	1,858,237	174
1864	Abraham Lincoln, Dem.	1,858,237	174
1868	Abraham Lincoln, Dem.	1,858,237	174
1872	U. S. Grant, Rep.	3,037,070	286
1876	R. B. Hayes, Rep.	4,033,297	185
1880	W. M. Tilden, Dem.	4,284,365	184
1876	U. S. Grant, Rep.	59,727	1

On the 30th ult., the desk of Mr. Francis Little, Kingston, was robbed of \$100 in money.

## CITY COUNCIL.

The Council met last evening at the usual hour. Present—His Worship the Mayor; Aldermen—Dickson, Smith, (Jas.), Smith (A.), L. H. St. Charles, Jellitt, Langham, McInnes, Vandusen, Ostrom, Grant, Hamblin, Wallbridge, Pettie, Costello, Farley, Holden and Green. The minutes of the last meeting were read and approved.

COMMUNICATIONS, &c.

The following were presented and read: From the Treasurer, stating that the appropriation for Poor and Charitable purposes had become exhausted, and he was obliged to discontinue the issue of railway passes; also, that an asset in the estimate of 1877—the account of the City with the R. P. Day—had not been accounted for by the late Chairman of Finance.

From the Minister of Education, giving an account of certain changes in the School Law in connection with the relations between municipalities and school boards in regard to school accommodation.

From H. H. Blacker, complaining of the inoffensive manner in which Albert Street had been graded.

From Hector Cameron, Solicitor of the G. J. Railway, proposing that the Company forego one year's interest on the \$300,000 debentures, providing that they forego all claims for taxes on property owned by the Company up to the present year.

From L. J. Sargent, Traffic Manager of the G. J. Railway, in answer to a communication of the Mayor to the general Manager of the Company complaining of certain regulations of the Company providing that in case of promotion, the preference should be given to employees in the Company's workshops in Montreal. Mr. Sargent said the regulations were necessary for the safety of the travelling public.

From W. A. Hamilton, Collector of Inland Revenue, asking whether any municipal regulations existed in reference to the storage of petroleum and asphalt.

From D. R. Leavens, asking that a factory for the manufacture of cider, vinegar, &c., which he intended establishing in the city, be exempt from tax during a period of ten years.

From Mrs. Lister, asking payment for the use of a piece of ground on the corner of Bridge and Front streets, used as a stand for fire engines.

A number of accounts were read.

The above, with the exception of Mr. Leavens' petition and that of the Collector of Inland Revenue, which were allowed to remain on the table, were referred to their appropriate committees.

Ald. Green came in.

A communication from J. Maiden, tendering his resignation as City Cwp Inspector, was also read. It was allowed to remain on the table.

REPORTS.

The Finance Committee reported, recommending that the petitions of various individuals for relief and for remission of taxes be granted; that a select committee be enquired into the financial relations of the city and county be appointed, consisting of the Mayor, Ald. Jellitt, Dickson, and St. Charles, that the petition of Mr. Cokeright, asking for the appointment of a Market Constable, be referred to the Market Committee.

A number of accounts were also recommended to be paid.

The Water and Gas Committee reported recommending that the resolution of Ald. Pettie in regard to the deepening of a well in Samson Ward is not entertained.

Street closures for reported the value of the stone quarry of H. Thompson in West Belleville to be \$100.

INQUIRIES.

Ald. Langham wished to know whether the property which was purchased for the opening up of Ann and Catharine streets should be charged to Public Works or City Property.

Ald. Langham was persuaded to defer the question until he could move a resolution in reference to the same.

Ald. Pettie asked whether Ald. Langham had included the streets in his estimates.

Ald. Langham said he had not.

Ald. Vandusen inquired as to the proposition in regard to the cutting of a drain on Dunbar Street. He had heard complaints in reference to the lack of such a drain.

Ald. Langham explained that the appropriation was not great enough for the purpose; it had been considered expedient to leave the matter over till next season.

Ald. Dickson inquired whether J. B. Drewry's taxes, the payment of which was conditional upon the granting of a lease, had been paid.

The Solicitor said he thought not.

Ald. Holden inquired whether it was the intention of the Finance Committee to appropriate any surplus funds obtained by the sale of debentures to improvements in the harbor.

Ald. Jellitt said that it was not the intention of the Council to expend any more on the harbor this year. The \$90,000 obtained by the sale of debentures would be used for paying off overdue debentures, the debt due the Merchants Bank, and the debt due the County.

Ald. Holden asked to what use the surplus funds the disposal of the City would be applied?

Ald. Jellitt replied that the Committee had not taken that into consideration.

On motion of Ald. Green, Mr. Jacob Cronk was heard in reference to a grievance which he claimed to be suffering under. He had made great improvements in his property on John and Rear streets, and had been assessed on property which he owned in that vicinity to the extent of \$11,000. He had been repeatedly promised that a sidewalk should be laid on the west side of John street, but as yet nothing had been done in the matter. He asked that the oft-promised sidewalk be laid down.

NOTICES.

Ald. Dickson gave notice of a motion to the effect that the transfer of the lease from J. B. Drewry to D. Maunsell, which had been asked for, be not granted until the taxes due from the former be paid.

Ald. Dickson gave notice of a motion that the number of gas lamps in the City be reduced.

Ald. Robertson gave notice of a by-law to amend the By-law for the purpose of appointing a new City Inspector.

BY-LAWS.

Ald. Dickson introduced a By-law fixing the salaries of City officials. Also, a By-law providing for the interment of the dead within the City limits.

MOTION.

Ald. Green moved that the petition of Mr. Hamilton be referred to the Fire Committee, for them to report upon at the next meeting of the Council.

Ald. Pettie moved that steps be taken to secure a bridge over the river for the purpose of dredging the harbor. The motion was allowed to stand as a notice.

Ald. Green moved that steps be taken to have the sidewalk on the north side of John Street repaired at once. With the consent of the Council, the motion was referred to the Public Works Committee.

The motion was carried.

The report of the Water and Gas Committee was passed.

Ald. Langham asked for the payment of an account due him for the use of a piece of ground on the corner of Bridge and Front streets, used as a stand for fire engines.

Ald. Dickson objected. The account should be referred to the Finance Committee.

The motion was carried.

Ald. Langham moved that the amount charged for the purchase of Ann and Catharine streets be not charged to the Public Works Committee. The matter was referred to the Finance Committee.

Ald. Green moved his resolution in reference to the sidewalk on John Street.

Ald. Hamblin moved that it be referred to the Public Works Committee.

Ald. Jas. Smith pointed out that the matter had been referred to that Committee, and that it had recommended an appropriation for the construction of the sidewalk.

The matter was referred to the Public Works Committee, with power to act.

Ald. Robertson moved that Mr. Stillman and John N. Diamond have the use of the woodhouse on Bushy Island as a fishing-shanty during the winter.

Ald. Pettie argued that the use of the building should be for the purpose, on the ground that the most important of the holy Apostles were fishermen.

The motion was carried.

Ald. Dickson moved that the petition of Mr. D. R. Leavens, asking for a ten years' exemption from taxation on a proposed vinegar factory, be referred to the Industrial Committee, with power to act.

Mr. Leavens, on being heard, said only one other factory of the kind existed in this country. The material which he intends to bring to the city would be damaged by a long delay.

The Mayor thought that the matter should be settled to-night.

Ald. Pettie thought that the Council should not act hastily.

Mr. Leavens's motion was carried.

Committee rose and reported.—Adopted.

Council adjourned.

Heavy Revenue Seizure.

On Saturday last Messrs. J. A. Harvey & Co. of Montreal, shipped forty-eight large hogsheads of what was purported to be "ale" to W. G. Sugart, Charlottetown, P.E.I. Revenue officers had their suspicions that all was not right, and examined one of the hogsheads on the cars. Instead of ale it was found to contain a fine quality of highwines. The forty-eight hogsheads were accordingly seized at once and placed in the freight shed. Following up the matter the Revenue officers went to Messrs. Harvey & Co.'s stores and found the number of puncheons intact. There they were, forty-eight highwines puncheons. On examination, however, they were found to contain nothing but water. How highwines could be turned into water would under ordinary circumstances be a mystery, but here it was quite evident that the highwines had been transferred to the ale hogsheads and entered as ale. The highwines are worth about \$2 a gallon, which will bring the total value up to about \$6,000. The amount of revenue that should have been paid on the barrels would amount to about \$4,000. Pretty sharp practice, that.

Ameliasburgh Correspondence.

Grain buyers may now rest at ease. The grangers sold their barley to Downey of Belleville, on Wednesday last, for \$55, delivered to their new dock, Bay Side. Some of the grangers have said that more than was necessary, viz., that the Grangers were a curse to any country, because they would not sell their barley or allow others to—just as though a farmer could not sell his wheat with his own grain. The shipment of grain barley commenced on Monday at the grange dock near the upper ferry.

If a malt house could be established at Reduville, it would be a step in the right direction. If Mr. Reduvin could be induced to change his storehouse into a factory of this kind, we feel confident he would be handsomely backed by the Grange.

Most of the cheese factories shut down on Saturday last. The price this season has been very good, averaging better than milk. Too many patrons kept out their milk when the price of butter came to 25c. to give a good report.

Some of our old gardeners say they never saw so much large fruit as there has been this year. D. H. Delong, Esq., shows a splendid apple from his orchard of the Black River farm, measuring over 1 1/2 in. in circumference and weighing over 1 lb.

A schooner was loaded with apples at Reduville last week.

British Columbia.

VICTORIA, B. C., Oct. 31.—The Customs duties collected during the month of October at the port of Victoria were \$47,247. The other ports approximate \$15,000. During the four months it amounted to \$244,257. For the year it is estimated that the collections will amount to \$732,771.

The Indian population of the province is officially stated at thirty-five thousand.

The railway tunnel is progressing. Accidents are of frequent occurrence.

A heavy blizzard swept over the North-West near Fort Simpson, but no damage has been reported as yet.

News from the Cassiar mines is discouraging. Instructions have been received from Ottawa to locate the railway from Burrard Inlet to Ensay, a distance of ninety miles.

Mr. P. T. Chase, Simonsville, N. B., writes that he has been afflicted with a cough for a long time, has been becoming weak, medical treatment did no good. He writes: "I am suffering from Chalybeate. The first dose benefited him, and he is now perfectly cured."

## MINISTER OF RAILWAYS.—SIR CHARLES

Tupper arrived at Winnipeg yesterday morning, and received a hearty welcome from the Conservatives of the city, by whom he will be entertained at a banquet on Saturday next.

THE EAST.—There is still a chance for war in the East, as the Turks are said to be sending troops and ammunition to the Greek frontier. Derwish Pasha has arrived at Scutari and will take charge of the Delugean matter. It is said that no arrangements have been made by the Powers for the withdrawal of the fleet.

THE PRINCESS LOUISE.—The Mail says: It is understood that Major De Winton, the Governor-General's secretary, will go to England almost immediately. Her Royal Highness, who are to be here, will not return to Canada this winter, her health not being sufficiently re-established. While the parliamentary session will show much of its interest, no one will feel inclined to grumble at the loss. Her Royal Highness' loss of health will give the Canadian public more real concern.

TELEGRAPHING IN THE GULF.—The Dominion Telegraph Company is to extend its lines from Sydney mines, C.B., to Cape Race, touching at Loyal's Cove and Encampment. This is a grand scheme, the Gulf scheme, and will be of great service in saving life and property. It is intended to connect with St. Paul's Island by cable. A semaphore will be placed on the north-eastern part of the island, and all vessels passing up or down the Gulf will be reported.

REACONFIELD VINEYARD, G. T. R., NEAR PETERBORO, P.Q.—The sea on for planting vines having arrived, parties wishing to engage in grape culture are requested to forward their orders immediately to Gallagher & Gaudin, 8, Second St., Pointe Claire, or at their office, 27 St. Gabriel street, Montreal, daily.

ZOPES.—I have received the agency for this compound for Dyspepsia and Liver Troubles. It comes to me under most favorable auspices, being very highly endorsed and recommended. Its wonderful ability to dissolve the organs and the liver, increasing the digestive juices, correcting the acids and carrying off impurities of the stomach and regulating the Liver, can be tested by securing a sample bottle, which sells at 10 cents, or a larger bottle, which sells at 25 cents. L. W. YOMANS, AOT.

Mr. Theo. Fraser, Newburgh Village, N. B., desires to say that a few weeks ago a loaded wagon went over his leg, causing a severe strain, was confined to bed, and would have been there yet if he had not used Dow's Stomach and Liver Cure. A couple of bottles made his leg perfectly well.

"The Blood is the Life."

RHEUMATISM, Neuralgia, Dyspepsia, NERVOUS Diseases, &c., are cured by wearing

Boyd's Miniature Galvanic Battery.

Sold by

R. TEMPLETON, Dispensing Optician,

EXTRACT FROM THE 'MAIL', TORONTO.

W.M. BUCK, of Bradford, Ontario, the Victoria Victoria, certainly makes a display which is not only valuable to his establishment, but a source of surprise to the beholder, when that exhibition seems to be "Are those stoves intended for use or ornament?" and upon interrogating the proprietor, Mr. N. L. Tupper, the agent in Toronto, he is informed that the inventor had both ideas in his mind—usefulness combined with beauty. His idea was to make a stove something like an attractive house—fit to grace the parlor or command in the kitchen. There is a little self-deception "Radiant Heat" banner and they are all handsomely decorated and they are very attractive. This stove is a perfect masterpiece, with all the necessary modern improvements.

The "Radiant Heat" stove can be seen at (Chow's), Front St., and only look to be seen to be appreciated.

Also a great variety of other makes and styles in all classes of stoves.

A. CHOWN, 1434 St. St., 301 Front Street.

THE TEA POT.

Dinner to Matthew M. Thompson.

(From the Montreal International.)

On Saturday evening last the numerous friends and acquaintances of M. M. Thompson, Esq., entertained a large number of guests to a dinner given in honor of his departure for the East.

His departure for the East was a very important event in connection with the American and European cattle trade.

Thirty-six guests were present, including many of the leading men of Southern Manitoba. The occasion was intended as an appropriate send-off for Mr. Thompson.

The dinner was a very successful one, and the guests were entertained in the most comfortable and pleasant manner.

The dinner was a very successful one, and the guests were entertained in the most comfortable and pleasant manner.

THE Daily Intelligencer.

Dinner to Matthew M. Thompson.

(From the Montreal International.)

On Saturday evening last the numerous friends and acquaintances of M. M. Thompson, Esq., entertained a large number of guests to a dinner given in honor of his departure for the East.

His departure for the East was a very important event in connection with the American and European cattle trade.

Thirty-six guests were present, including many of the leading men of Southern Manitoba. The occasion was intended as an appropriate send-off for Mr. Thompson.

The dinner was a very successful one, and the guests were entertained in the most comfortable and pleasant manner.

An Unlikely Vessel.

Yesterday, says a London exchange, off North Wales, a yacht or launch, of about 100 tons, was seen.

The vessel's name was not known, but it was supposed to be a British vessel.

The vessel was seen by a fisherman, who reported it to the authorities.

The vessel was seen by a fisherman, who reported it to the authorities.

## PHOENIX HALL

IF YOU HAVE A HORSE

YOU want him to be perfect. If he is

not perfect, you may have him

improved by the use of Dr. Dow's Sturgeon Oil

Lumbricose—a cure for brucis, strangles, and colds, catarrhs of the kidneys, scurvy, cracked heels, grease and skin, founder, ringbone, hard hock, &c.

If he is troubled with any of these

GIVE HIM A CHANCE

by using Dr. Dow's Sturgeon Oil Lumbricose.

This Liniment is a powerful remedy for

all the above ailments, and by its use the

horse reaches the state of the disease mentioned, and recovers them.

YOU CAN DO NO BETTER

than invest in a bottle of 25 cents, and it will

show its worth in a very few days.

Put up in large bottles, retail 25 cts. each, and sold by all Druggists and Country Merchants.

J. W. BRAYLEY, Montreal.

## Weekly Intelligence.

Copies of the WEEKLY INTELLIGENCER in wrappers ready for mailing can be had at the business office, corner of Front and Market Streets, every Thursday. Price 50 cents.

## Daily Intelligence.

BELLEVEILLE, FRIDAY, NOV. 12.  
Small Businesses.

Nothing seems too small for the Ontario Government to take hold of. Their duty is to maintain themselves in power is to all enrolling and they are so scrupulous as to the means of doing so, that they seem to be at a loss. The first evidence of a disposition to make the most of the patronage at their disposal and to distribute it in their own hands, was the dismissal of the issuers of marriage licenses and the substitution of "good and true" in the place of many of the officials thus removed. In other cases they appointed two or more where one had held office before, as in this city, where they placed a hungry and not very well disposed supporter by giving him an appointment of this class, his sales of licenses amounting, 'tis said, to two or three in number during his office. Next they took it upon themselves to honor those gentlemen learned in the law whose political opinions were of the right stripe, by creating a number of them Queen's Counsel and giving them precedence over those legally appointed by the Ontario Government. The Ontario Government was furnished with a few Conservatives, to give a slight appearance of fair play in the matter, but of course the mass of the honored ones were supporters of the Government. This attempt to create the greatest of the legal profession came to naught, however, as the Supreme Court decided that the appointments were not within the power of the Legislature, the expected gratitude of the appointees has not been earned. Rather, they having made it impossible to be appointed, they were not disposed to exert themselves very much in favor of the politicians who thus caused the wounding of their self esteem. The next and grandest move was the creation of a liquor interest, in favor of the powers that be by the appointment of License Commissioners and License Inspectors, who have served an immensely useful purpose. Charmed with their success thus far, the Conservatives at the last session of the Legislature, virtually took the appointment of judges into their hands and boldly seized control of the office of Division Clerk and Division Court Bailiffs in Oshawa, Towns, and Villages, and thus made another addition to their strength and power.

This latter seizure has already been operated to a considerable extent. A considerable number of Clerks and Bailiffs have already been dismissed, and as matter of course replaced with creatures of the Government, and doubtless other transactions of the same nature will be reported before long. So far as the Belleville Court is concerned, a new departure has been inaugurated, which shows some ingenuity on the part of our Provincial rulers. The former Clerk and Bailiff have been continued in those positions, but an additional faithful Clerk named Harrington, from Prince Edward—has been appointed, who is to divide the business equally with the former appointee. Thus, another supporter has been provided for, and an additional influence secured for his patron. How long will the people submit to this petty tyranny in the interest of the people, but which threatens or long, unless its encroachments on the liberty of the subject be checked, to become as burdensome and distressing to this Province as was the Old Man of the Sea to Sinbad the Sailor.

For the Intelligence.  
Mr. Rector, Sir,—Is there anything that can be done to prevent young men, who are to any young men, from profaning the house of God, during divine service, by the most solemn occasion of funeral service, by the use of tobacco? It is monstrous to see people to sit with some of them in the same pew while they chew and smoke tobacco, and all around them, to the great annoyance of those who go to worship and pay the last tribute to a departed friend. It is one of the most filthy and disgusting practices a person can be guilty of. No well behaved, well bred person would practice it, nor would it be tolerated in our parishes. If those persons did so we would be obliged to remove them from our pews. I trust this will be the case, but that habit will be practiced in church, they will still persist in doing so, we will give the names of the parties to the public through this medium.

Yours,  
Margaret, Nov. 1880. A. S. BARR.

**RECOVERED VENEREAL.** G. T. R., near Front Street, Q. W. The best medicine "never having arrived," parties wishing to cure their venereal disease, or to prevent its return, are requested to forward their names immediately to Calverley and Sons, 57 St. George's, or at their office, 57 St. George's, Montreal, Q. C.

## MUNICIPAL COMMITTEES.

## FINCH COMMITTEE.

**PASSEY.**—Ald. S. Charles (Chairman), A. S. Patterson, and J. C. O'Connell. The question of storing asphalt, petroleum and other inflammable materials, was considered. The following resolution was passed: That it be recommended that the Corporation of Belleville be authorized to purchase a lot of land for the storage of inflammable materials in places provided especially for that purpose.

Two accounts were considered: that of the fireman of No. 1 engine, and M. B. Robinson, assistant of Victoria. The payment of the first it was agreed to recommend; the other was laid over for further consideration.

## PUBLIC WORKS.

**PRESIDENT.**—Ald. Lingham (Chairman), Wallbridge, Vanhook and Ostrom. Several accounts for gravelling the streets and an account from Walker & Co. for hardware, were passed.

## POOR AND SANITARY.

**PRESIDENT.**—Ald. Frie (Chairman), A. L. Smith, Ostrom, Lingham. The business transacted in the committee was the passage of two important accounts.

## Women's Christian Association.

The annual public meeting of the Women's Christian Association was held in the City Hall last night. Presence, at the annual meeting, was called to the order.

Rev. M. W. McLean read the 84th psalm, and the Rev. Dr. Jacques engaged in prayer. Mr. Carmichael read the annual report of the Association. It showed that in the past year the Association had been very successful; seventeen persons had been provided for in their homes, and a large amount had been expended in the cause of the poor. The association numbered 175 members. The report referred in feeling terms to the death of the late Mrs. Jacques.

Rev. M. W. McLean said this Association should receive the sympathy and support of every right minded individual. There were two sections in the work of the Association, namely the beneficent work and the purely Christian work. In the Home for the Friendless, less than a hundred persons found a home, many families needed assistance who were not paupers, and these people were provided for by the Association, great good being done in this way. The Association, great good being done in this way. The Association, great good being done in this way.

Rev. R. Lane seconded the resolution. The work of the Association was the relief of the poor and the lifting up of the fallen. The good one had been well done. No other Society could do the work of this one. No person was too good to join in the work, and no one would be hurt by being in the work. He believed that a larger field of labor and greater achievements were before the Association.

Rev. Dr. Clarke addressed the meeting, and earnestly commended the Association, and supported the resolution moved by Mr. Holton. He said that the Association was doing a noble work, and that it was the duty of every citizen to support it. He said that the Association was doing a noble work, and that it was the duty of every citizen to support it.

## Court of Chancery.

**10th November.**  
**HUTCHINSON v. DUNHAM.** Mr. T. to establish a bill. Defence, that it was destroyed by fire. The parties resided at Milford, in the County of Prince Edward, and the case was one of negligence in attendance. The facts are briefly as follows: The testator, Geo. H. Dunham, died in 1875, in consequence of disagreement on the second marriage of his wife, and lived from that time till within five or six weeks of his death, off and on at Walter Knapp's, in the village of Milford. During this time he made a will, leaving his property to the wife and daughter of Mr. Knapp. A few weeks before his death he left the house and went to the village of Milford, and lived there until he died. He was found by the jury to be insane at the time he made the will, and the will was declared to be void. The estate was then divided between the wife and daughter of Mr. Knapp.

At the conclusion of the evidence, which occupied the greater part of three days in hearing, the judge expressed the opinion that he thought it proper to order for the purchase of Mr. Manning's interest in the road and the parties who have the matter under consideration with a view to coming to some understanding. The judge then ordered that the parties should be allowed to go on for a week, and that the parties should be allowed to go on for a week, and that the parties should be allowed to go on for a week.

other sleep with her unnoticed.  
In her day have shown the

How the fast young man gets on is another question. I apprehend it hinges on whether he has in purse, countenance, and intellect, with equal folly and recklessness, the power to make somewhat on his position before the eyes of the rest of himself, for every rank, to be sure, has its own beast of him. You find him in the street, in the shop, the warehouse, the club, the office, the conversation, the school as in the street, in the wall. In every rank he lives as he likes, and goes on alone, but it is always as a rule, he drinks, or will do so, and he has his companions. He very commonly, or the reverse, as he likes, or the reverse, as a whole, or runs low. If he

I said he is fast in spending

**Working for**

Working for God is often humbling. It entails suffering fitted for it by suffering. Because the suffering brings fellowship with our Lord, who of sorrows; because it brings sympathy with our brethren as us; because it weakens us; bless us. Do you know what difficult with us? It is as it is the emptying us. It is us; it is the pulling us down; it is that God's chief instrument is the pick-axe. He must hew down, and what is

that we are able to do it when a man is wounded, to once out of the ranks and

ing until his wounds are healed by the Lord's army. There the heat of the battle, and the vanguard. Look at the his and you will see the most, whom God has employed in for his glory have been, in or among the most afflicted or heart or in body, sometimes do not fear of suffering with that suffering together with; contrary, it helps it on. We offer our prayer to God, and us and make us, don't let us

him also to break us. That comprehensive prayer; "To make me!" God answering

**Christian He**

It is nearly two generations ago that a crowd left their ship to reach the islands. One of the passengers desired to land, but the boat did so, as the cannibals were on the shore; but, holding up his hand, he said, "Live or die. They would not go near the land into the surf and held high reached the land. The cannibals, him, but he was their favor; them, and (as I ought I know

a cargo of Bibles. They were  
were taken with the greatest

result of the labors of that he who said, "Love or die, but I was preaching to my people on behalf of the Bibo society: I am in a circumstance in illustration of which is not so long after all, between the reaping. When I came to the pulpit and was standing in the midst of the people, there came up to me a tall, gentleman, a man that looked to be a descendant of one of the nobles of the land. He said, "You will excuse me for speaking to you and introducing myself. I am the Captain so and so—I need no name—I am in command of the 10th regiment of foot."

coming to speak to you in ref  
you said about these Islands  
with my ship. I saw these pe

I love <sup>such</sup> Christianity among the people of these islands. Said he "They remind me of you in you read in the Apostle John Hall.

**Time Enough**

Yes, you will love and mar it is right; but do not be in a hurry to grow up and away from me. I never give you anything away. I'll be there when you have need. No more of your mother's; no care more for your father's; no companionship like

## REAL ESTATE

**VALUABLE MILL PRIVILEGE**  
AND  
**Premises for Sale.**

THE subscribers offer for sale one of the best Mill sites and water privileges on the River Moira, just outside the limits of City of Montreal, and near the foot of the Trunk Railway station. The main town and villages run through the premises, there being a small road at the head of canal, excavated at a large outlet, 44 long, 25 feet wide, and 10 ft deep, with lime foundation; walls of mill 100 feet by 56 feet wide and 8 feet foundation, built 6 feet, with masonry openings for six windows. Ten feet head of water, with the sluice right to use the farther shore of river, moving the water over the dam, affords water power at ANY point in a length of

yards on the river. Any amount of water power available nine months in the year, from 30 to 40 horse-power the rest of the

On the east side of the road are six and a  
 acres of land, capable of brining land on  
 building for or being used in connection  
 extensive milling or manufacturing for  
 purposes, or both. The above is one of  
 most valuable properties of the kind ever  
 offered for sale in this Province. For terms  
 particulars apply to

BELLEVILLE, TUESDAY, NOV. 23.

## Chief Justice Cockburn.

Sir Alexander James Edmund Cockburn, Lord Chief Justice of England, died last Saturday morning. He was perhaps the ablest British jurist of his time, and during the past twenty years occupied a more prominent position in the eyes of his countrymen than any member of his profession. Born in 1802, he had reached the ripe age of 78, but his vigorous and powerful mind did not appear to feel the touch of age, and the day before his death he delivered judgment in a difficult and complicated case, and walked home in the evening to his dinner as he had been accustomed to do for years past. He possessed the iron constitution which is so often found in British men of intellectual activity. His father, Alexander Cockburn, was British Minister in Colombia, and his mother was daughter of Viscount de Vignerot de St. Domingue. His uncle was Sir William Cockburn, Dean of York, and upon his death in 1838 Sir Alexander succeeded to the baronetcy. He graduated at Cambridge, was admitted to the bar in 1829, and his talents became immediately recognized. In 1841 he was made Queen's Counsel. He had always taken a keen interest in politics, and in 1847 he came forward as a parliamentary candidate in Southampton. He was elected, and soon became distinguished in the House for his forensic talents—notably in 1850, when he established his reputation as a parliamentary orator by his masterly defence of Lord Palmerston's foreign policy. He was knighted the same year, and appointed Attorney-General, and in 1851 he received the yet higher office of Solicitor General. In 1856 he was appointed Chief Justice of the Queen's Bench, and in 1859 he was knighted the same year, and appointed Attorney-General, and in 1851 he received the yet higher office of Solicitor General. In 1856 he was appointed Chief Justice of the Queen's Bench, and in 1859 he was knighted the same year, and appointed Attorney-General, and in 1851 he received the yet higher office of Solicitor General.

## News Continued.

## Chicago Abroad

All the world's eyes are turned to Chicago  
as the great western metropolis. America, long  
for a head of all competing cities, has at last  
won the prize. The city is now the center of  
the world's commerce, and its future is  
bright. From their vast resources it has  
been able to furnish the world with all  
the commodities it needs, and its  
prosperity is now a fact.

## Buckner's Armies Abroad

The Buckner Armies are now for sale in  
Chicago, Boston, New York, Philadelphia,  
San Francisco, and all other cities.  
They are of the highest quality, and  
are sold at a low price. For sale by  
Jas. Clarke & Co. 55-57

## ZEPHERA, from Brazil, is now on sale

ZEPHERA, from Brazil, is now on sale  
at the Boston Dispensary, 100 N. 1st St.  
It is a mild purgative, acting as a  
laxative, and is sold at a low price.  
For sale by the Boston Dispensary, 100 N. 1st St.

## The Secret of Happiness

How often have we longed for perfect  
enjoyment and low sorrow from life. Misfor-  
tunes have come, and we have been  
suffering. Perhaps a cough has come upon us,  
and we have been unable to do our  
work. We feel that life is a burden,  
and we are weary.

## One and the Same Thing

Dyspepsia and indigestion are synonymous  
terms, and both are the result of over-  
eating. The digestive organs, like all other  
organs, become weak and tired, and  
are unable to do their work. This  
results in indigestion, and the food  
is not properly assimilated.

## Bleeding Beauty

What is more handsome than a man  
with a bright complexion, a glowing face,  
and a healthy body? All this can be  
obtained by using Dr. Williams' Pink  
Pills. They are sold at a low price,  
and are of the highest quality.

## A Fact Worth Knowing

Are you suffering with Consumption,  
Coughs, Sore Throat, or any other  
disease of the throat? If so, you  
should use Dr. Williams' Pink Pills.  
They are sold at a low price, and  
are of the highest quality.

## Everybody uses "Taber's"

Everybody uses "Taber's" to beautify  
and preserve the skin. It is a  
beauty product, and is sold at a  
low price. It is of the highest  
quality, and is used by all who  
value a beautiful complexion.

## Winning Hotel, Montreal

The Winning Hotel, Montreal, is a  
superior hotel, and is of the highest  
quality. It is sold at a low price,  
and is of the highest quality.

## Mr. Thos. Fraser, Newhall Village, N. Y.

Mr. Thos. Fraser, Newhall Village, N. Y.,  
writes: "I have been using Dr. Williams' Pink  
Pills for some time, and I feel  
that they are of the highest quality."

## D. VIBURN &amp; CO., 75 Nassau St., N. Y.

D. VIBURN & CO., 75 Nassau St., N. Y.,

BELLEVILLE, THURSDAY, NOV. 25.  
Election Brbery in Britain.

We have already given a number of specimens of the way in which bribery at elections in Great Britain has been reduced to a fine art, but a few more specimens of the same kind, brought out in further election cases, may be acceptable. At Gloucester £2,600 were expended by the Conservatives in buying votes. Mr. Edward T. Smith testifies that he has had bribed 300 persons, and that John Franklin admitted bribing 500 voters. The Liberals also bribed heavily, their system being a secret one, conducted, as the report says, from behind a partition. At Oxford, of which we have previouses spoken, a golden shower seems to have fallen abundantly on the voters, as both sides paid liberally, some £5,000 or £8,000 having been spent in this wise. Chester was likewise fortunate in the same way, as voters were treated by both parties to all they could eat and drink, and get liberal payments besides, to the extent of £4,000. Sandwich was, however, the most liberally treated of any of the boroughs, as out of 2,100 voters no less than 900 were bribed, and the Liberal, more than 100 of the voters in Deal got £3 to £5 each. The summary from which we gather the above facts tells us that one witness said he accepted bribes for himself and his brother, but his brother would not have thought it as well to keep the money in the family. One man admitted that he received three pounds from each side, and then (noble soul) tossed with a penny to decide for whom he would vote. Richard Sharp had £8 from Edward Ag. and £4 from William J. Norris. (Conservative.)—Mr. Seaton: Did you have anything else?—Witness: Yes, sir (laughter). I had £3 from Warner (Liberal).—Mr. Seaton: Who did you vote for?—Witness: I would tell you, sir, my secret. I would tell you must—Well, sir, I thought Sir Julian was the heaviest, and so I gave him my vote. (laughter). A large number of persons who received bribes from both sides were also called. Mr. M. Goss: Postmaster of Sandwich stated that he had received £100 in election, £25 was given him by Mr. East, £25 by Mr. Coleman for walking about the streets all night, and £25 from Mr. Fag. He could not say what the £25 was for. Mr. Seaton: That Mr. East asked him if he would be acceptable to him, and he replied that it would, and he took the money. (laughter). Chas. Pauling, an elector of Sandwich, said he received £5 for the Conservative canvassing, and also £7 for treating voters. He went from public house to public-house in a promiscuous way trying to get persons to vote on his side. A man named Wm. Epps admitted having received bribes from both sides, although he swore before the Election Judges that neither party had given him anything. He had spoken truth because Mr. Locke told him not to do so. An army pensioner admitted giving false evidence of a late nature at the trial of the petition. One witness desired to return a bribe, and was recommended to take it to the person who gave it. Another witness said that in addition to himself receiving £3, his son, aged 9, was paid 30s as messenger. On Wednesday several witnesses gave evidence as to giving money for bribery. A man named Barker said he had received no money, but it afterwards transpired he had been paid £23. The Commissioners severely censured him. And so the story goes. Bribery and corruption, with perjury to back them, seem to have prevailed all over the country, and all the English elections. The revelations made would doubtless have been greatly amplified had other elections been contested; but it is perhaps as well that such should not be the case, as they would be sufficiently disgusting as it is. Let us hope that the electors of Canada will never fall to so low a level as their brethren in the mother country have done.

The ballot is not only a failure in preventing bribery at elections, but it is a contrivance an incentive to people to take bribes, as English experience, as above alluded, shows that men can, under a system of secret voting, accept money from both sides and then vote as they please.

WHOLESALE IMPORTERS.—A despatch from Knoxville, Tenn., says: At a reception tendered to Joel Hembree and his wife, at the residence of the father of the bride, near Kingston, Boone county, several were used to mistake for soda. Six persons had been the effect, and thirty others are dangerously ill, three of whom are dying.

BRANCH POST OFFICES.—Three branch Post Offices are to be established in the district, where letters will be registered, parcels and books posted, stamps sold, and all information on postal matters imparted. They will be north-east, and at a distance rather exceeding a mile from the head office.

## The Grain Testers.

That part of the community that sell grain will, we doubt not, be very much pleased at the action of the Inspector of Weights and Measures in sending the grain testers used by the Government to the grain test of ascertaining the weight per bushel of grain, and thereby determine the price to be paid for it, and will be still further pleased to know that Mr. J. M. Dempsey, of the Government, has been successful in his contention, and that the illegal weighing machines, and came within the meaning of the 28th section of the Weights and Measures Act of 1876 has been sustained by the Police Magistrate.

It is a pity that there has never been weighing machines of any description which have been so unpopular, and so much disliked by the farming community, as the grain testers, or as they are nicknamed "brass bottles." In Germany, where the grain testers are used a great deal, the Government have found it necessary to make very stringent rules as to their use, and our Government allow the use of those which are based on the standard measurement—viz. Imperial—shall be those adopted in Germany would require to be put in force, so that justice might be done between buyer and seller.

Our farmers prefer, however, that the standard ball bushel should be that which shall be taken as the basis for determining the weight per bushel of grain. As the grain will now have to be used—anything else being illegal—we believe there will be a good deal more satisfaction in transactions in grain.

## Editorial Notes.

FREE TRADE.  
Free trade is a fine thing this, but it is not so nice in practice. The Southcotts in the latter phase of the subject, which we reproduce, as follows: "Free trade has no regard or affection for the working classes. Its end and aim is cheapness of production, and its consequence is the loss of the interest of the working men in the dust. Free trade encourages the employment of cheap foreign labor, such as the Chinese, in preference to native labor. This is clearly shown by the attitude of the free trade party on the Chinese question. As an important as the Chinese question; it is also shown by the practice of British ship-owners in recent years. Formerly the British merchant navy was manned almost exclusively by British sailors; since the repeal of the navigation laws, about half the men employed are foreigners from the coast of the Mediterranean, from Norway, from China, and wherever foreign sailors can be picked up cheap. The effect has been greatly to deteriorate the quality of the British navy, by introducing the worst of the swiftness of foreign ports; but what cost the British free trader for that so long as he obtains cheap labor! Let the working classes of Canada be assured that they have nothing to hope for from free trade. As in other lands, free traders here will not scruple to do everything in their power to lower the wages of labor."

## MARTIN.

CORRESPONDENT, Nov. 23.—The schooner J. Waters is ice bound in Waller's Bay with barley for Oswego. The schooner Garibaldi, which was on shore on Wednesday last, Saturday night's gale, is lying in high water, about thirty rods from shore, and if she lies there all winter will not be materially damaged. Captain McGeehan and the sailors are not so badly frozen as was expected, and are doing well.

The schooner Maggie McCree, which was caught in Saturday night's low tide and ice at anchor, had given up hope of ice on her docks when she reached Toronto. The schr. Maryburg, reported missing, is safe at Toronto.

Two schooners left Toronto on Tuesday for the canal. One of the propellers are still running and expect to make one more trip before laying up. Navigation is still suspended on the Welland Canal and is virtually closed at Oswego. MILLINERY, Nov. 23.—Navigation has closed here now. The tug Glenora started with the ship Empress to tow her into clear water, and had to return, not being able to get through the ice. The schr. Ontario and St. Clair are stripping and laying up here, frozen in, and loaded with barley for Oswego. The Express is loaded with barley for Kingston.

The schooner J. Waters, of Oswego, is in port; market has lightened and takes to Toronto. An effort will be made to get the Glenora off. Capt. Ufford, of the latter vessel, left twenty feet into the yawl, breaking the rigging, injuring the head and otherwise seriously bruising him.

The Oswego Palladium of Tuesday says: "The following vessels are in port: Schooners Blazing Star, Hamus, J. Hartford, Vassar, Ontario, Glenora, and St. Clair. In winter quarters; coal laden, Maria A. Hall, for Toronto; Flat for Sandy Creek; Amos, for Kingston; Flat for Toronto; J. W. F. Grant, for Oswego; Florence for Belleville; Annie Palmer, and North Star, laden with coal and merchandise for Whitney; Plover, John Quinlan, Deserres, Florence Howard, proprietor City of Montreal."

A BIDDULVEE REMOVAL.—A sensational story comes from London, Ont., to the effect that a number of letters have been brought to light, written by a prominent member of the Biddulvee family, to the younger Donnelly, inciting the latter to deeds of violence, and in one instance, it is asserted, to assassination.

On the 24th Nov., Dr. Bentley, chairman of the high school board, Newmarket, died suddenly while sitting in his office reading a newspaper. It is supposed he died from heart disease.

## THE TRENTON SWING BRIDGE!

## Its Opening Yesterday!

## Visit of the County Council.

The new iron swing bridge over the Trent river at Trenton was opened for traffic yesterday in the presence of the County Council, which went up to Trenton in the morning for the purpose of witnessing the opening of the bridge. The members of the Council met at the Hotel Hamilton at 8 a.m., and, accompanied by the Mayor, proceeded in two of Lake & Jenkins' largest sleighs. The drive to Trenton was uneventful and was accomplished in about two hours and a half. As a matter of course, after such a long and cold drive, it took considerable time to get the sleighs started on the ice. The Mayor, with the application of warmth both externally and internally; and by the time the Council were ready for the bridge, dinner was ready for them. The Council went to the present day to proceed to the inspection of the bridge before dinner, for they well knew that in such cases the inspection would be too slight a hasty and superficial one if they first dispatched the excellent dinner which Mr. Parrott had provided for them at the St. Lawrence Hotel, and then called forth to the river with cheerful faces and contented hearts to view the opening of the first iron swing bridge which has been constructed by the County Council.

The bridge is a structure which at once impresses the eye with the idea of its great strength. The framework is almost wholly iron, and the massive stone substructure on which it rests is as strong as the bridge itself. There are no ordinary proportions would not serve to move it. All our readers who have visited Trenton will easily remember the position of the swing bridge. The whole bridge, from shore to shore, is 750 feet in length. More than four-fifths of this, on the eastern side of the river, is a stationary and covered; the remaining space, on the western end, is the swing bridge. It is 132 feet in length, 15 feet in width, and 14 feet 6 inches clear, in the turning table, resting on four wheels. The weight of the bridge between the covered bridge and the bank, is 25 feet in diameter; and the stone towers at each end of the bridge are 18 inches each—this leaving a clear space of 45 feet on each side of the bridge. It is a swing, a space sufficient to enable the largest vessels to pass through. The weight of the iron which was used in the construction of the bridge is between 30 and 40 tons. The weight of the whole superstructure is about 45 tons. The bridge is swung by means of a lever which connects with a shaft running down through the centre of the bridge. The shaft terminates in a "pinion," (a small cogwheel), the ends of which fit into cogs in the end of an immense flat stationary wheel fixed on the pier, and the pinion, being fixed around this circle, moves the bridge along with it. The lever is easily worked by two men. The bridge rests on a massive circular pivot-pier of solid masonry, which is set in a hole bored through the journey to Trenton. Its estimated weight is about 700 tons. It is 22 feet 9 inches high, from the bed of the river to the top, and stands 6 feet 9 inches above the surface of the water—the depth of the water being about 16 feet. The construction of the pier was by far the most difficult part of the whole undertaking. At first a cofferdam was sunk on the location of the pier, and Calcutt's steam pump was employed to pump the water out. The pier, however, settled in a failure, owing to the slurry under bottom, which allowed the water to flow in under the bottom of the cofferdam. However, they succeeded in forming a level bottom as the foundation pier, driven being employed for the purpose, who leveled the bottom with solid masonry. The next step was the construction of an immense octagonal cofferdam, and a pile of timber, driven being employed for the purpose, who leveled the bottom with solid masonry. The next step was the construction of an immense octagonal cofferdam, and a pile of timber, driven being employed for the purpose, who leveled the bottom with solid masonry.

The bridge having been duly inspected, the Council proceeded to get ready for their drive back to town, and the sleighs started from the town at about 2 o'clock. The drive home was cold and comfortable. The only things which served to keep the spirits of the company in the rear wheels were the keen arguments and the rich banter of Scotch humor of Councillor Donald Anderson. Before coming into town the Council paid a visit to the Hotel Hamilton, where they were met by Mr. Matheson, the Superintendent, having previously invited them to inspect the institution. An account of the visit will be found in another column. It was a most interesting visit, and it was a most precious gift of wisdom and wit, arrived in town, and the Councilors were soon gathered around the Superintendent, who was giving them a most interesting account of the institution. An account of the visit will be found in another column. It was a most interesting visit, and it was a most precious gift of wisdom and wit, arrived in town, and the Councilors were soon gathered around the Superintendent, who was giving them a most interesting account of the institution.

News Condensed.  
—Lans' shipyard at Napawa was burned on the 24th inst.  
—London East has resolved to ask for incorporation as a town.  
—The city of Winnipeg will be lighted with gas in August next.  
—The late Lord Mount Vernon has endangered the Vancouver railway.  
—Queen Victoria arrived at Windsor Castle from Balmoral on the 24th inst.  
—Snow in some parts of Quebec is very deep, and traveling very difficult.  
—On the 23rd, Mr. Kilson of Township of Portland was killed by a falling tree.  
—Martin Redmond, an old resident of New England, who died, at the advanced age of one hundred years.  
—There is good sleighing at Fredericton, Chatham, and other places in the province of New Brunswick.  
—The fire at the City of Detroit has required the services of fifty engine of Toronto, at a salary of \$2,500.

On the 22nd inst., a man named Oryon, in Ottawa, was found dead, and his wife lying dead drunk beside him.  
—The German press strongly condemn the British Government for its policy of tolerance towards Ireland.  
—On the 23rd inst., Dr. Roydall's brother, while crossing the G. T. Railway track in sleigh at Montreal, was struck by a pilot engine and severely injured.  
—Little Stabbe, a young man named Humphrey under the left ear. Wound not dangerous. Little was arrested.  
—At Ayton, Grey Co., on the 22nd inst., a man with the contents, owned by Adam Keller, was destroyed by fire. Four horses and twenty cattle were burned. The fire was the work of an incendiary.

A despatch from Detroit states that there are 125 vessels in Lake Erie, 31 at Clear River, and Lake Huron from west, with a large number of reaching their destination. There is no water in the north end of Detroit.  
—Galusha Maraville, mechanic and inventor, and patentee of the well-known calendar clock and other article, was killed on the 24th inst., by falling from a scaffold while engaged in the construction of a clock.  
—The fire at the City of Detroit has required the services of fifty engine of Toronto, at a salary of \$2,500.

Murphy and another gentleman went to the bridge for the purpose of inspecting it to repair the bridge. They claimed that it was the duty of the Government to rebuild it, and that it was their duty to see that it was done. The Government, however, refused to undertake the work, giving as a reason that it was not their duty to do so. Murphy and the other gentleman, however, delivered up the control and care of all bridges to the County Council. This action, it was said, was rendered necessary on account of the fact that the Government had demanded bridges over every little creek in Lower Canada. Mr. Murphy then went to the County Council, and the County Council granted him a grant of \$10,000 towards the rebuilding of the bridge. He urged the immense inconvenience to which people in the neighborhood were put by the bridge, when having to cross the river, either to go to the Frankford bridge, eight miles distant, or to ford the river. Several accidents had also occurred in consequence of the shakiness of the bridge—one man and a number of cattle had been drowned; and Mr. Murphy did not fail to make the most of these occurrences in presenting his case. The result was that the County Council granted the \$10,000. The bridge was then rebuilt, the \$10,000 being granted by the County Council, and being supplemented by a similar sum drawn from the village treasury. At that time the Council did not wish to assume the proprietorship of the bridge on account of further expense, which would have been incurred, and it being more economical to give it to the village to aid in rebuilding it, and to leave to the village the responsibility of keeping it in repair. This condition of things did not last long, however. In a very short time the County assumed the control of it and made it a free bridge. It has been controlled and maintained by the village ever since. For several years past the bridge has been in a dilapidated condition, and the growing importance of Trenton and the Trent called for a new bridge. The village council, however, in the Council presented the matter very hard, and finally carried their point. The Council had for a considerable time been divided on the question as to whether it would not be more economical to build all new county bridges of iron, and it was finally decided to make the experiment by having the new swing bridge at Trenton thus constructed.

Accordingly, the work was begun just about five months ago, and realized yesterday in the formal opening of the new bridge in the presence of the Council.

The opening ceremony was very simple. There was no brass band, no flag flying, no speeches, not much drinking; the ceremony merely consisted in a couple of men taking hold of the lever in the middle of the bridge, and pushing against it, when the whole ponderous structure swung slowly around. The sight did not create a great deal of enthusiasm in the hearts of the crowd, who were standing on the shore or standing on the bridge, and looking on at the sight. There was not the ghost of a cheer. When the bridge swung all the way around, it was found that the masonry on the shore pier had been built at a height of 15 feet, and that the end of the bridge from properly constructed with the pier. This, however, will be easily remedied.

The bridge having been duly inspected, the Council proceeded to get ready for their drive back to town, and the sleighs started from the town at about 2 o'clock. The drive home was cold and comfortable. The only things which served to keep the spirits of the company in the rear wheels were the keen arguments and the rich banter of Scotch humor of Councillor Donald Anderson. Before coming into town the Council paid a visit to the Hotel Hamilton, where they were met by Mr. Matheson, the Superintendent, having previously invited them to inspect the institution. An account of the visit will be found in another column. It was a most interesting visit, and it was a most precious gift of wisdom and wit, arrived in town, and the Councilors were soon gathered around the Superintendent, who was giving them a most interesting account of the institution.

A despatch from Detroit states that there are 125 vessels in Lake Erie, 31 at Clear River, and Lake Huron from west, with a large number of reaching their destination. There is no water in the north end of Detroit.  
—Galusha Maraville, mechanic and inventor, and patentee of the well-known calendar clock and other article, was killed on the 24th inst., by falling from a scaffold while engaged in the construction of a clock.  
—The fire at the City of Detroit has required the services of fifty engine of Toronto, at a salary of \$2,500.

On the 22nd inst., a man named Oryon, in Ottawa, was found dead, and his wife lying dead drunk beside him.  
—The German press strongly condemn the British Government for its policy of tolerance towards Ireland.  
—On the 23rd inst., Dr. Roydall's brother, while crossing the G. T. Railway track in sleigh at Montreal, was struck by a pilot engine and severely injured.  
—Little Stabbe, a young man named Humphrey under the left ear. Wound not dangerous. Little was arrested.  
—At Ayton, Grey Co., on the 22nd inst., a man with the contents, owned by Adam Keller, was destroyed by fire. Four horses and twenty cattle were burned. The fire was the work of an incendiary.

## Ameliasburgh Correspondence.

Most of the cheese factories have been closed up here, and the average so far is very good.  
Mr. J. W. Wert, of the Ontario Commercial College, Belleville, has been working in selling the books of Mr. F. P. Porter's College, and reports over \$200 per standard of 5,000 one mile milk.

W. A. Anderson, one of the patrons of this factory, sent the milk of two young calves during the season, which netted him over \$82.00.

You Have No Excuse.  
Have you any excuse for suffering with Dyspepsia, a smart headache, or indigestion? Why you should go on from day to day complaining with your stomach, rich head-aches, habitual constipation, palpitation of the heart, heart burn, waterbrash, gas, and burning pain at the pit of the stomach, Yellow Skin, coated tongue, and disagreeable taste in the mouth, coming up at night, and eating, low spirits. No! It is positively your own fault if you do. Give your Digestion and get a Bottle of Cassell's Aromatic Food for 25 cents; your course is certain, you will feel better. Bottle for 10 cents and try it. Two doses will relieve you.

When a cough won't let up—when it is dry and hard and delays or wastes time—Give Down's Extract of Sassafras to keep the cough loose, and the danger will soon be over.

Lost.  
STRAYED.—From the premises of the undersigned, a small black and white dog, a reward will be paid to any one giving such information as will lead to its recovery. W. H. HARRISON. 1764d

Wanted.  
WANTED.—A good cook wanted immediately. Apply at the Windsor House, West Belleville. 1764d

For Sale or to Let.  
HOUSE TO LET.—Corner Hotel and Ann Street, good rooming place, with nice garden, containing fruit trees attached. Rent, \$4 per month. Apply to B. & F. FURR, Hartman, Sept. 23. 1764d

TO LET.—The house at present occupied by Mr. W. H. HARRISON, and lately occupied by Mr. Frederick Lingham. Apply to N. B. FARRER. 1764d

TO LET.—The store on the east side of Front Street near the Bank of Commerce, lately occupied by BARNETT & SELL. 1764d

MANHOOD—HOW LOST, HOW RESTORED.

We have recently published a new edition of Dr. Oliver's "The Elements of Manhood," on the subject of Nervous Debility, Mental and Physical Impairment, Impotence, Sterility, etc., resulting from excess. It is a small, elegant, only one volume, and is a valuable work. The publisher, The Oliver-Wendell Co., 41 Ann St., New York, City, Office No. 4586.

BEAVERVILLE, FRIDAY, NOV. 26.

## The State of Trade.

The Montreal *Witness* says: "It is not fair to ascribe the improved state of commerce to the National Policy, and, we fear, can hardly be called upon to do so. The expected change long before the National Policy was proposed. That movement was so timed as prospectively to take advantage of the coming improvement in affairs, and none more disappointed than its promoters when they found that the change did not come as soon as they had, like many others, confidently calculated. We have had five or six years' hard times, and the necessary reaction must, of course, be after such an unexampled period of distress, all the more marked. The cool assumption, then, that this great change in the policy of the National Policy is very largely due to the *Witness* seems to have set up a man of straw for the amusement of knocking him down, and at the same time of securing to it the characteristic journalistic thrusts at the Conservative party. No person and no journal, so far as we are aware, has wholly 'sacrificed the improved state of commerce' to the National Policy. Sir Leonard Tilley took occasion, in his recent speech in this Province, to state his opinion that the good harvests of last year and of the present season have had a considerable share in contributing to that highly desirable result. But it would be idle to deny that the legislation of the past two years has also had a very large effect in relieving many of the disabilities under which our manufacturers and traders suffered. The number of men employed in manufacturing industry has been largely increased, and the short time system in those previously struggling for existence has been discontinued. Therefore as the earnings of the people have been largely increased, they have spent money much more freely than they did. The traders have benefited. The strict enforcement of the Customs laws, too, whereby the 'slaughtering' of Yankee goods on our markets has been stopped, has also had an excellent effect. *Witness* itself has borne testimony very frequently to the benefits which the manufacturers and workpeople of Montreal have derived from the National Policy; let it not, therefore, seek now to create an impression to the contrary. If our contemporary must discuss the subject, let it give an honest opinion as to whether or not the country, whether the business community derived under the Tilley tariff was not an absolute necessity; and whether that tariff, whilst effectual in producing the required revenue, has not been so framed as to do so in such a manner as not to be oppressive to the people, but conducive to the interests of the Dominion.

## Grain Exports.

The Collector of Customs has kindly, as requested, furnished the following comparative statement of the quality and value of grain reported from the port of Belleville for the years 1879 and 1880, between the dates named:

From Jan. 1st to Jan. 1st 1879.	From Jan. 1st to Jan. 1st 1880.
Barley, 42,227	285,292
Wheat, 1,556	1,778
Rye, 131,000	81,847
Oats, 100,000	100,000
Total, 205,583	569,917

This statement is necessarily incomplete, as the Customs officers take no note of grain forwarded home to home ports. Taking into account 50,000 bushels each year, and is probably within the mark—we have a total for 1880 of 714,717 bushels, the value of which would be about \$465,000. Comparing the prices, we find that the average value of barley exported in 1879 was 67¢ and 66¢ in 1880; of rye 62¢ in 1879, and 60¢ in 1880. The average value of all grain exported in 1879 was 66¢, and in 1880, 69¢ cents bushel. Thus the returns show not only a handsome increase in the quantity of grain exported, but in value as well. Had an average remained open as long as it did in 1879, the comparison would have been still more favorable, especially as regards barley, which, just before the war, was closed, was 35 cents above the average price of last year, and was coming in freely. The statement is, however, of an eminently satisfactory nature.

GENERAL PROPERTY.—An important characteristic of the progress of general property is also to be seen in the probable character of food all over the world. The United States. The total grain production estimated at 450,000,000 bushels, and it is estimated that a surplus of some 180,000,000 bushels will remain after the home and foreign consumption has been provided for.

## From the St. Lawrence

## The Ice Blockade.

The position of the steamship *Provincie* and the *Amazone* is unchanged, both vessels being aground in the harbor at St. John. Some boats were yesterday to proceed on their voyage. The cargo of the *Provincie* has, with the exception of what was in her lower hold, been thrown into the river. The insurance companies will not cover the loss of the cargo as was anticipated, for in the event of the cargo being thrown overboard the owners of the ship are obliged to bear half the loss. Many of the other ships, even those from the dock of the steamship manager, are to be loaded by drifting ashore on huge cakes of floating ice. At one time many as fifty were seen in the ice. The cattle were shipped by Mr. Price, and the sheep by Mr. Morgan. The longshoremen at Cap Rouge, New Liverpool, and Quebec, are reaping rich harvests, by taking the dead cattle and sheep out of the river. No tug has yet been able to get near to the stranded steamer, and it is not deemed probable that one ever will. The two or three days prove exceptionally mild.

## Campbellford Correspondence.

CAMPBELLFORD, Nov. 22, 1880.  
On the removal of our old respected agent, Mr. Dellar, to the elevated position of Superintendent of the G. J. Railway at the Belleville depot, the vacancy has been filled by Mr. Kelly, a young man who has had several years experience, both on the Midland and Grand Trunk Railways, as supervisor and station agent, and we understand to be a full satisfaction of his employers. Since his residence in Campbellford he has made many friends by his amiable and obliging manner, and with whom he is connected. We hope he may long hold the situation which it seems he is so well adapted to fill. The train of last night brought in the merchants of our village, 300 barrels of salt. I believe I can say that every house here is supplied.

The St. Lawrence paid out on account of these three factories in this township to-day \$18,000.

Mr. Wm. Stale, butcher, who has been carrying on his trade in Workworth for the last five years, has been in his factory and hopes to get a share of the public patronage.

Mr. J. S. formerly miller at Karkworth, has joined Mr. S. Morley in his factory, which will immediately be fitted up with new and improved machinery, and several new hands employed.

## Sporting Notes.

On the 24th inst. Edward Hadden paid a visit to the London Stock Exchange, and returned quite an oration. He was carried around the room in a sedan chair, and some of the members, who had been in the habit of coming to the Exchange, were in the habit of coming to the Exchange.

## Marine.

From the broken condition of the hull and wreckage of the *Provincie*, it is taken that she must have been wrecked by explosion.

The *Owego Palladium* says: "Capt. J. Savage, who abandoned the schooner *Perle* at Port Hope, and who was in Wellington last Friday, Capt. H. O'Hagan says he saw him there."

On the 24th inst. the *Provincie*, laden with wheat for Prescott, sank in four feet of water at the Northern wharf, Toronto. The previous night she was backing out of the harbor on her way to Prescott, when she was struck by her timbers by the ice. She barely had time to make her start when she went down.

NEWFOUNDLAND.—As part of British North America for the present outline of this Dominion, the Newfoundland possesses much interest for Canadians. We hear of the colony too often in regard to railway complications with the United States, and too seldom with respect to its trading interests. From statistics recently published, it appears that Canada last year exported goods to the island to the value of \$2,238,671, and received products valued at \$316,630. Our exports greatly exceeded those of the United States, and those of England by about a quarter of a million pounds. The bulk of Newfoundland's exports is sent to the Mother Country, Brazil, Portugal, Spain, and the West Indies being also large customers.

PARAGUAY IN EUROPE.—The earthquake in Southern America seems to have been of almost unprecedented violence in Europe. The centre of the disturbance appears to have been Agnes, where three separate shocks were felt. More than 100 private houses have been irreparably damaged, two churches are in dangerous condition, and many of the public buildings are in ruins. A portion of the cathedral will require to be reconstructed, the country seat of the Cardinal Archbishop, the military school, and the Government printing establishment have been half destroyed. The damage to the *Provincie* is estimated at about a million francs. Although an average of a dozen earthquakes happen yearly in different parts of the globe, they seldom occur with severity in Europe. There was a terrible one in England in 1318. Part of Old Windsor, and the Temple Church succumbed to and in 1790. London felt a slight shock in 1790. A distant disturbance of a similar nature is said to have occurred in 1879. A similar shock occurred in Yorkshire no longer than three years since.

## TWOED NOTES.

## TWOED NOTES.

A young child of Mr. Peter Lusk, near the floor, laid backwards into a pail of hot water, from the effects of which it died. The child had been two, but it did not seem to feel much pain, and it was quite as little as any other child of its age. T. R. Waller, Wm. Crank, P. Dwyer and a reward will be paid to any one giving news of the young man went out on Tuesday for a hunt. They followed their dog in rear of Mr. John Bowell's farm, the dog came to a halt and they looked around, and the young man was seen to be in the dog's front. The dog barked and each took a crack at him, to which he made no reply. He weighed 235 lbs. and was a coat of glossy black, and measured seven feet five in. tall. Business is looking up here since sleighing. Wood is coming in rapidly; good wood can be bought from \$1.50 to \$2.00 per cord.

## TWOED NOTES.

## TWOED NOTES.

A young child of Mr. Peter Lusk, near the floor, laid backwards into a pail of hot water, from the effects of which it died. The child had been two, but it did not seem to feel much pain, and it was quite as little as any other child of its age. T. R. Waller, Wm. Crank, P. Dwyer and a reward will be paid to any one giving news of the young man went out on Tuesday for a hunt. They followed their dog in rear of Mr. John Bowell's farm, the dog came to a halt and they looked around, and the young man was seen to be in the dog's front. The dog barked and each took a crack at him, to which he made no reply. He weighed 235 lbs. and was a coat of glossy black, and measured seven feet five in. tall. Business is looking up here since sleighing. Wood is coming in rapidly; good wood can be bought from \$1.50 to \$2.00 per cord.

**Chicago Ahead**

All the world now looks up to Chicago as the great western metropolis of America, better than all of all competitors. It is the center of the world, in its line, is electric. From its great metropolis, it is the center of the world, in its line, is electric. From its great metropolis, it is the center of the world, in its line, is electric.

**Buckeye's Arrow Brand**

The Best BALSAM in the world for Cuts, Bruises, Stings, Ulcers, Burns, Scalds, Chapped Hands, Chills, Croup, and all kinds of Skin Eruptions. This balsam is guaranteed to give perfect satisfaction in every case, and is sold in every drug store. Price 25 cents per bottle. For sale by J. C. Clark & Co. at 25 cents per bottle.

**Zeppa, from Brazil, is now a rare**

Canada. It is a mild, pungent, acting as a tonic, and giving strength and energy to the system. It is a rare and valuable article, and is sold in every drug store. Price 25 cents per bottle. For sale by J. C. Clark & Co. at 25 cents per bottle.

**The Secret of Happiness**

How often have we heard of the secret of happiness? It is not a secret, but a fact. It is the secret of happiness, and is sold in every drug store. Price 25 cents per bottle. For sale by J. C. Clark & Co. at 25 cents per bottle.

**One and the Same Thing**

Dyspepsia and biliousness are synonymous terms, and both are the result of over eating. The digestive organs, like all organs, must have rest; when they are tired, they cannot perform their functions. Constipation frequently results from dyspepsia, and dyspepsia frequently results from constipation. The system becomes diseased, and the body is weakened. It is a fact, and is sold in every drug store. Price 25 cents per bottle. For sale by J. C. Clark & Co. at 25 cents per bottle.

**Beautified Beauty**

What is more handsome than a nose bright clear complexion, showing the beauties of perfect health? All can enjoy these advantages by using Dr. Kline's Nose and Throat Remedy. It is a fact, and is sold in every drug store. Price 25 cents per bottle. For sale by J. C. Clark & Co. at 25 cents per bottle.

**A Fact Worth Knowing**

Are you suffering with Constipation, Cough, Croup, or any disease of the Throat and Lungs? If so, you are in need of a good medicine. Dr. Kline's Nose and Throat Remedy is a fact, and is sold in every drug store. Price 25 cents per bottle. For sale by J. C. Clark & Co. at 25 cents per bottle.

**Dr. Thos. Fraser, Natural Village, N. B.**

desires to say that a few weeks ago a loaded wagon, driven by a man, was overturned, and the driver was killed. The wagon was loaded with goods, and the driver was a man of good reputation. It is a fact, and is sold in every drug store. Price 25 cents per bottle. For sale by J. C. Clark & Co. at 25 cents per bottle.

It is the hour when the sun is low

And the moon is high in the sky

And the stars are shining brightly

And the wind is blowing softly

And the birds are singing sweetly

And the flowers are blooming brightly

And the trees are rustling softly

And the water is flowing sweetly

And the earth is smiling brightly

And the world is full of life and joy

And the heart is full of love and hope

And the soul is full of peace and rest

And the mind is full of wisdom and truth

And the spirit is full of power and grace

And the body is full of health and strength

And the life is full of happiness and bliss

And the death is full of glory and triumph

And the resurrection is full of life and joy

And the kingdom of God is full of peace and rest

And the world is full of life and joy

And the heart is full of love and hope

And the soul is full of peace and rest

And the mind is full of wisdom and truth

And the spirit is full of power and grace

And the body is full of health and strength

And the life is full of happiness and bliss

And the death is full of glory and triumph

And the resurrection is full of life and joy

And the kingdom of God is full of peace and rest

And the world is full of life and joy

And the heart is full of love and hope

And the soul is full of peace and rest

And the mind is full of wisdom and truth

And the spirit is full of power and grace

And the body is full of health and strength

And the life is full of happiness and bliss

And the death is full of glory and triumph

And the resurrection is full of life and joy

And the kingdom of God is full of peace and rest

And the world is full of life and joy

And the heart is full of love and hope

And the soul is full of peace and rest

And the mind is full of wisdom and truth

And the spirit is full of power and grace

And the body is full of health and strength

And the life is full of happiness and bliss

And the death is full of glory and triumph

And the resurrection is full of life and joy

And the kingdom of God is full of peace and rest

And the world is full of life and joy

And the body is full of health and strength

And the life is full of happiness and bliss

And the death is full of glory and triumph

And the resurrection is full of life and joy

And the kingdom of God is full of peace and rest

And the world is full of life and joy

And the heart is full of love and hope

And the soul is full of peace and rest

And the mind is full of wisdom and truth

And the spirit is full of power and grace

And the body is full of health and strength

And the life is full of happiness and bliss

And the death is full of glory and triumph

And the resurrection is full of life and joy

And the kingdom of God is full of peace and rest

And the world is full of life and joy

And the heart is full of love and hope

And the soul is full of peace and rest

And the mind is full of wisdom and truth

And the spirit is full of power and grace

And the body is full of health and strength

And the life is full of happiness and bliss

And the death is full of glory and triumph

And the resurrection is full of life and joy

And the kingdom of God is full of peace and rest

And the world is full of life and joy

And the heart is full of love and hope

And the soul is full of peace and rest

And the mind is full of wisdom and truth

And the spirit is full of power and grace

And the body is full of health and strength

And the life is full of happiness and bliss

And the death is full of glory and triumph

And the resurrection is full of life and joy

And the kingdom of God is full of peace and rest

They tried, among American papers, to get a look at the "Daily Intelligencer," but it was not to be. The paper is not only a "Daily Intelligencer," but it is also a "Daily Intelligencer."

It is the hour when the sun is low and the moon is high in the sky. The stars are shining brightly and the wind is blowing softly. The birds are singing sweetly and the flowers are blooming brightly. The trees are rustling softly and the water is flowing sweetly. The earth is smiling brightly and the world is full of life and joy.

Arrive from Hastings, Campbellford and Stirling at 10:30.  
Trains will run by Belleville time.  
E. H. BURNAN, Superintendent.  
May 31st, 1880.

## MANHOOD.

### HOW LOST, HOW RESTORED.

We have recently published a new edition of Dr. Culverwell's Nervous System, (without medicine) of Nervous Disease, Mental and Physical Incapacity, Impediments to Marriage, etc., resulting from nervous debility.  
Price, in a small envelope, only 6 cents, or two postage stamps.  
The celebrated author, in this admirable treatise, clearly demonstrates, from thirty years' practical experience, that alarming consequences may be radically cured, without medicine, by the use of simple, certain, and effective, means of internal medicine, and the application of the knife, pointing out a mode of cure at once simple, certain, and effective, by means of which every sufferer, no matter what his condition may be, may be cured, cheaply, promptly, and radically.  
This Lecture should be in the hands of every youth and every man in the land.  
Address:  
THE CULVERWELL MEDICAL CO.,  
41 Ann St., New York,  
or Office box 4588.  
GOLD.

LADY THORNHURST'S DAUGHTER.

By Mrs. HARRIS LEWIS.  
Author of "The Double Life," "Treasures of the Court," &c., &c.

"Well," he said, as she came to a halt just within the door.

"Miss Ignatia won't be put off any longer," answered the woman. "She is waiting for you, and she will be angry if you do not go to her."

"I will go to her," said the colonel, sighing heavily.

He rose, and went slowly up the stairs to Ignatia's room, which he found empty.

His daughter looked up at him with a radiant smile. Her countenance fell a little as she saw that he was alone; but she said brightly—

"Come in, father, and sit down by me. Miss Ignatia has gone for little George. You must see the child's delight when she sees me. I have adorned myself with flowers so that the change in my looks may not frighten my baby; besides, you know how she loves roses."

Colonel Rodolph drew a chair near that of Ignatia. Miss sorrowful girl called her.

"Is there anything the matter, father?" she asked, with a sudden turn of apprehension.

"Little George is not here," said the colonel.

"Do you feel pretty strong this morning, dear?" asked the Indian officer, gently.

She seemed dazed, a frightened look gathering slowly in her eyes.

"I have had news for you," said the colonel, looking at her fluttering hand in his strong grasp.

"Be brave, Ignatia."

"George has not been found."

"Not found? Not found?"

"No, Ignatia. I have had police detectives on the search for him and the child since her abduction. Not a clue has been obtained as to the child's whereabouts. She has been traced to Clapham Junction, and was seen to enter a carriage."

Colonel Rodolph drew a chair near that of Ignatia. Miss sorrowful girl called her.

"Is there anything the matter, father?" she asked, with a sudden turn of apprehension.

"Little George is not here," said the colonel.

"Do you feel pretty strong this morning, dear?" asked the Indian officer, gently.

She seemed dazed, a frightened look gathering slowly in her eyes.

"Little George is not here," said the colonel.

**Chicago Ahead**  
All the world knows that Chicago is the great western metropolis of America, but few are aware of the fact that it is also the most important manufacturing city in the world. It is the seat of the great iron and steel industry, and the center of the great lumber trade. It is the great market for the products of the West, and the great outlet for the goods of the East. It is the great center of the great American Republic, and the great seat of the great American civilization.

**Buckley's Arnica Salve**  
This is a most valuable medicine for the treatment of all kinds of skin diseases, such as eczema, psoriasis, and leprosy. It is also a most effective remedy for the treatment of all kinds of rheumatism, and for the treatment of all kinds of neuralgia. It is a most valuable medicine for the treatment of all kinds of chronic diseases, and for the treatment of all kinds of acute diseases.

**The Secret of Happiness**  
How often have we longed for perfect contentment and how often have we sought it in vain. The secret of happiness is not in the possession of wealth, nor in the pursuit of pleasure, but in the cultivation of the soul. It is in the love of God, and in the love of our fellow-men, that we find the true secret of happiness.

**One and the Same Thing**  
Dyspepsia and biliousness are synonymous terms, and both are caused by the same thing, namely, the indigestion of food. The treatment of these diseases is therefore the same, and consists in the use of a medicine which will aid the stomach in the digestion of food, and which will also cleanse the bowels.

**Envyed Beauty**  
What is more handsome than a nice, bright complexion, showing the beauty of the face? It is the result of the use of a medicine which will cleanse the blood, and which will also improve the complexion.

**A Fact Worth Knowing**  
Are you suffering with Consumption, Cough, Spasms, or any disease of the Throat and Lungs? If so, you are in need of a medicine which will cure these diseases, and which will also improve the general health.

**Widow Hotel, Montreal**  
This superior hotel, furnished with elegant and all the latest improvements, and elegantly maintained, is the most comfortable and convenient place for the accommodation of the public.
